**GENERAL INFORMATION**

The coll. was founded by royal charter in 1907 'to give the highest specialized instruction and to provide the fullest equipment for the most advanced eng. and res. in various branches of sci., especially in its applicn. to industry'. It is a federation of 3 instns. of earlier origin—the Royal Coll. of Science, the Royal Sch. of Mines and the City and Guilds Coll. The coll. was admitted as a sch. of the Univ. of London in 1908.

The three constituent colls. have kept their

identity, and, closely linked within the Imperial Coll. framework, they divide the work of the Imperial Coll. between them. The Royal Coll. of Science conducts the work in pure sci., chem., phys., maths., bot., zool., geol. and meteorol.; the Royal Sch. of Mines concentrates on mining, mineral technol., metall., mining geol., oil technol., geochem. and appl. geophys.; the City and Guilds Coll. is concerned with the main branches of engin., aeronaut., chem., civil, elect., and mech.

**U.K.—ENGLAND (LONDON)**

The coll. was selected in 1953 to be the spearhead of the national attack on the problem of providing more univ.-trained scientists and engineers. The coll. agreed to double its size, to provide for 3000 students and to carry out this operation in 10 yrs. By the beginning of the session 1961-62 student numbers had risen to a total of 2725 and over 44 new posts as prof. or reader in the Univ. of London had been establd. and filled at the coll.

**COLLEGE PREMISES.** The main academic devel. is taking place on the 16-acre site bounded by Queen's Gate, Prince Consort Rd., Exhibition Rd. and Imperial Institute Rd. The expansion plan involves major new bldgs. and many alterations and adaptations in those existing. The first new bldg., to house the depts. of aeronautics and chem. engin., was opened in 1957, while 2 further projects, a new bldg. for phys. and the first section of a large new mech. engin. block, were completed and occupied during the session 1959-60. The 2nd stage of the mech. engin. block, and new bldgs. for electr. engin. and civil engin. will be brought into use during the session 1962-63. An extension bldg. to the R. Sch. of Mines is under constn. and work has also started on a new bldg. for biochem., in aid of which a benefaction has been made by the Wolfson Foundation. A large scheme for new halls of residence was made possible by the acquisition in 1956 of the neighbouring Prince's Gdns. The first new hall, provided through the generosity of Messrs Vickers Ltd., was opened in Sept. 1959, and, on the south side of Prince's Gdns., work is in progress on 4 more halls and gen. refectory facilities which are due for completion in 1962.

**CONSTITUTION.** The edmus. of the Imperial Coll. is vested in a governing body of 52 members representing the crown, the self-governing countries of the Commonwealth, the Minister of Educn., the Univ. of London, the London County Council, the City and Guilds of London Inst., the Royal Commissioners for the Exhibition of 1851, the Royal Society, the teaching staff of the Imperial Coll., and professional socs. The rector of the Imperial Coll. and the deans of the 3 constituent colls. are members *ex officio*. The bd. of studies is responsible to the governing body for the academic work of the coll. and consists of the rector (chairman), all the profs. of the coll. and 6 non-professional members.

**INCOME (1959-60).** Total income: £2,366,801 (govt. grants, 75 per cent.; self-balancing res. contracts, 14 per cent.; fees, 6 per cent.; other sources, 5 per cent.).

**LIBRARIES.** Each dept. has its own library for reference and loan. Central library services are provided in the Lynn Playfair library (95,000 vols.). The Haldane library (11,000 vols.) is the non-sci. library. In addn. the library of the Science Museum is available for the use of students.

**Large FIELD STATION** at Silwood park nr. Ascot; **MINE** at Tywarthale nr. Truro.

**ADMISSION.** See p. 1056 and Appendix III.

The min. age for admission is 17. Women are admitted on the same terms as men.

**FIRST DEGREES (of Univ. of London) AND DIPLOMAS.** The same courses and exams serve for the coll. associateship and for the BSc (spec.) or BSc(Eng) degree of the Univ. of London. Courses for degrees with hon. (each 3 yrs.) are as follows: BSc (spec.) and ARCS in bot., chem., geol., maths., phys., zool.; BSc (spec.) and ARSM in mining geol. or technol.; BSc(Eng) and ARSM in metall., mining, mineral technol., BSc(Eng) and ACGI in aeronaut. engin., chem. engin., civil engin., electr. engin., mech. engin.

**HIGHER DEGREES (of Univ. of London) AND DIPLOMAS.** Courses of res. and advanced study open to grade of other univs. and leading to the PhD in a min. of a calendar yrs. from BSc, to the MSc and also to the DIC, are given in the following depts. and sub-depts. of the coll.: aeronautics (aerodynamics & aeronaut. structures); biochem., bot. & plant technol. (analyt. cytol. & bacteriol. & microbiol., ecol., genetics, paleobot., plant pathol. & mycol., plant physiol., taxonomy, timber technol.); chem. engin. & chem. technol. ## GENERAL INFORMATION

Founded by royal charter in 1839 for 'instruction in the various branches of literature and sci. and the doctrines and duties of Christianity', King's Coll. consisted at first of a sch. and depts. of general lit., sci. and med., to which were added successively engin., theol. and oriental depts. The hosp. was built in 1839; the evg. classes were started in 1836, and a women's dept. in 1881. In 1910 the coll. sch. became a separate corpora-

tion, the hosp. and advanced med. sch. were made indep., the other depts. (except the theol.) doing work of univ. standard were incorporated in the Univ. of London with the name of Univ. of London King's Coll., while the council remained the governing body of the theol. dept., which became a sch. of the univ. The coll. as a whole retained the name of King's Coll., London. In 1915 the arts and sci. depts. of King's Coll. for

Women, previously housed in Kensington, were transferred to the Strand bldg. of King's Coll., and the household & acc. dept. to new bldgs. on Campden Hill. The dept. of household & acc. became a separate instn. in 1938 under the title of King's Coll. of Household and Soc. Sci., now Queen Elizabeth Coll. In 1917 the oriental dept. was transferred to the new Sch. of Oriental Studies. The Sch. of Slavonic and East European Studies, founded in 1915, was constituted a separate dept. of the univ. in 1932.

**CONSTITUTION.** Univ. of London King's Coll., consisting of the five faces named below, is incorporated in the Univ. of London, and is governed by a delegation of the senate. It is also, with King's Coll. Theol. Dept. (see p. 1151), an integral part of King's Coll., London. The principal of King's Coll., London is apptd. by the crown, the dean of King's Coll. Theol. Dept., elected by the council, is equally dean of the whole coll. The sec. and librarian and registrar also serve the whole coll. and are apptd. by the governing bodies jointly. The fac. of arts includes profs. of div. and eccl. hist.

Applics. from Indian or Pakistan students, whether for undergrad. or for postgrad. work,

## GENERAL INFORMATION

A sch. of the univ. in facs. of arts and laws.  
As a result of the recommendations of the Reay Cttee in 1908, the sch. was establd. by royal charter in 1916 as the 'School of Oriental Studies, London Institution', in Finsbury Circus; it was granted the status of a sch. of the univ. and was later allocated space for a permanent (not yet fully completed) bldg. on the Bloomsbury site of the univ. In 1938, among other amendments to the charter, the title of the sch. was changed to 'School of Oriental and African Studies'. During the second world war a large number of intensive courses were given for service personnel, esp. in Chinese, Japanese, Burmese, Arabic, Turkish, Persian and Urdu, and much translation work was done for the various ministries as well as censorship duties. Largely as a result of the sch.'s initiative an inter-deptl. commission was set up under the Earl of Scarbrough's chairmanship to report on the provision for teaching and res. at univ. level in Oriental, Slavonic, E. European and African studies. The commission recommended a substantial expansion of existing facilities, and from 1947 large grants for Oriental and African studies have been made by the U.G.C. In accordance with the commission's recommendation that the whole field of Oriental and African studies should be developed in London, as against a more restricted devel. in other univs, the sch. devoted its energies in the first post-war quinquennium to building up strong, coherent academic depts., in which a proper balance is sought as between linguistic and cultural studies and the classical and mod. aspects of those studies. During the period 1952-52 expansion continued steadily, though at a slower rate, and the staff was strengthened by numerous new appts.

In 1960, a sub-cttee of the U.G.C., under Sir William Hayter's chairmanship, reviewed developments in univs. in Oriental, Slavonic, E. European and African studies since the Scarbrough report. In its report, published in 1961, the Hayter cttee recommended further development on a substantial scale, particularly in mod. historical, social and economic studies, and proposed measures designed to increase the number of students in these fields of study. The recommendations are to be implemented during the quinquennium 1962-67 and 1967-72.

INCOME (1960-61) £511,874 (principal sources: govt. grants, 86.6 per cent.; contributions from official, foundation and private sources, 8 per cent.; fees, 3.6 per cent.; endowments, 1.8 per cent.).

LIBRARY. Nearly 250,000 printed books and pamphlets, and 1500 MSS., incl. approx. 16,000 books in the library of Sir Reginald Johnston.

PERCIVAL DAVID FOUNDATION OF CHINESE ART, 53 Gordon Square, London, W.C.1 (tel. Euston 3909), attached to and administered by the sch., comprises collection of Chinese ceramics and associated library presented to univ. by Sir Percival David in 1950, to which was added in 1952 a large collection of Chinese monochrome porcelains given by the Hon. Mountstuart W. Elphinstone. Its object is promotion and teaching of art and culture of China and surrounding region.

## GENERAL INFORMATION

The federation was established by the statute in 1945 for the further development of postgraduate medical education in London. It was incorporated by royal charter in March 1947, and admitted as a school of the Univ. in Dec. 1947. The purpose of the federation is to provide organised and correlated facilities for postgraduate teaching and research for qualified medical and dental practitioners from the U.K. and other countries in and outside the

Commonwealth, and to co-operate with universities, medical schools, the royal colleges and other bodies in their provisions for postgraduate medical education. The federation provides: (i) a tripartite system for prospective specialists, supplementing the work of the undergraduate medical and dental schools; (ii) advanced revision for practising specialists; (iii) instruction for medical and dental practitioners who, though not specialists, desire more detailed knowledge of any branch of

med. or dent.; (iv) continuing educn. of general practitioners.

The federation comprises at present: *federated institutes*—Postgrad. Med. Sch. of Lond.; Inst. of Basic Med. Sci.; Inst. of Cancer Res.; Royal Cancer Hosp.; Inst. of Cardiol.; Inst. of Child Health; Inst. of Dent. Surg.; Inst. of Dermatol.; Inst. of Dis. of the Chest; Inst. of Laryngol. & Otol.; Inst. of Neurol. (Queen Square); Inst. of Obstet. & Gynaecol.; Inst. of Ophthalmol.; Inst. of Orthopaed.; Inst. of Psychiatry; Inst. of Urol.

Postgraduate educn. at the insts and the hospa. associated with them includes full-time and pt.-time courses of advanced instructn., clin. clerkships, jr. and sr. resident hosp. appts and opportunities for res. Provision is made for candidates for the MD, MS, MDS and PhD degrees, and courses are held for the academic postgrad dipls in clin. pathol. and psychol. med. of the univ. In addn. most insts hold conferences and symposia for consultants.

The federation organizes short courses for gen. med. and dent. practitioners and med. officers of local authorities at hospa. in the 4 London metropolitan regions and the Wessex region, these incl. a number of courses consisting of half-day sessions, at undergrad. and postgrad. teaching hospa. The agenda of the federation is carried out by the central office, which maintains a bureau of information on postgrad. med. educn. in the U.K., and arranges annually a series of lectures on 'the scientific basis of med.'. Three lectures on 'the scientific basis of dent.' will again

be held in 1963. These are designed for res. workers and specialists in trg., and are given by well-known experts from centres throughout the country.

The federation awards a limited number of travelling fellowships annually to medically or dentally qualified men and women who are holding appts at undergrad. or postgrad. teaching hospa. or med. schs of the Univ. of London. See also p. 910.

Following the institution of the national health service in July 1948, the federation appointed to the staff of the central office a regional adviser for postgrad. med. educn. in each of the 4 metropolitan regions to carry out the policy of the univ. and the federation in arranging postgrad. educn. for the practitioners, both specialist and gen., in the region. The S.W. metropolitan region was divided into 2 in 1959, the more distant part being separated from the S.W. region and named the Wessex region. In Oct. 1956 a regional adviser in postgrad. dent. educn. was apptd. The regional advisers are members of the admin. staff of the central office (see above).

The numbers of full-time students given below for each inst. are those who attended full-time for 1 term or more of the yr. Pt.-time includes those who attended for less than 1 term, whether full-time or

## GENERAL INFORMATION

Owens Coll., named after a Manchester merchant who bequeathed £26,000 for its foundation, was opened in 1851. The Manchester Sch. of Med. was united with it in 1872. The charter of 1880 by which the Victoria Univ. was founded established a federal constitution and made Owens a constituent coll. of the univ. Subsequently Univ. Coll., Liverpool, and Yorkshire Coll., Leeds, were admitted as constituent colls. A new charter was issued on July 15, 1903, reconstituting the univ. under the name of the Victoria Univ. of Manchester and freeing it from liability to admit or remain in session with any coll. other than Owens, and on June 24, 1904, the act for the incorporation of Owens Coll. with the univ. was passed. In 1905, on the establishment of the fac. of technol., the work of univ. standard at the Municipal Sch. (later Coll.) of Technol. was included in the univ. Under a charter granted in 1955 the Coll. of Technol. was establd. in 1956 as the Manchester Coll. of Sci. & Technol.

**CONSTITUTION.** The governing body of the univ. is the court of governors, whose exec. duties are the council; the senate, which consists of all the profs. of the univ., regulates academic matters. ## GENERAL INFORMATION

The Univ. originated in the adult sch. establd. in 1798, the Mechanics' Inst. and the People's Coll., developments leading to the Univ. extension lectures inaugurated in Nottingham in 1873—the first in the country—by the Univ. of Cambridge. An anon. gift of £10,000 in 1875 encouraged the corporation of Nottingham to erect a bldg. maintain it, and supply instrum. The bldg., in Shakespeare St., was opened in 1881 as the Univ. Coll., Nottingham, incorporated by royal charter in 1903. There were at first 4 professorships (lit., phys., chem., nat. sci.).

A large estate some 3 miles W. of Nottingham, giving room for expansion, and new bldgs. completed in 1928, were provided by the first Lord Trent, after whom they are now named. In 1918 a supplemental charter reconstituted the governing body, providing for much wider representation. The coll. was relieved in 1945 of responsibility for eng. and pt.-time educn. in the area; in 1947 the Midland Agric. Coll. at Sutton Bonington became the coll. sch. of agric., and an inst. of educn. was founded. Since 1948, when the Univ. charter was granted, 175 acres have been purchased, bringing the site to a total of 295 acres; new bldgs., incl. 4 halls, a biol. bldg., the Portland bldg., containing refectories and students' residences, a chem. bldg., part of the appl. sci. bldg. and the educn. & soc. sci. bldg. have been erected, and 23 new professorships have been establd.

Nottingham (pop. 312,000) is a Univ. and industrial city situated on the N. side of the river Trent, about 124 miles N.N.W. from London.

CONSTITUTION. The supreme governing body of the Univ. is the court, which includes the officers, life members, reps. apptd. by local authorities, reps. of churches, members of parliament of the divisions of the city of Nottingham and certain E. Midland constituencies, ex-officio members, reps. of staff, students and convocation, of other instns. and socs., incl. schs. and colls., and other persons, 3 of whom are nominated by the lord president of the privy council. The chairman of court is the chancellor. Subject to control by the court, the council is the executive of the Univ., responsible for the conduct of all the affairs of the Univ. The council consists of the officers, 3 reps. apptd. by court, reps. of local authorities in the E. Midlands area, 7 senate members, 3 reps. apptd. annually by council and 1 rep. of convocation. It controls the management and admin. of all revenue and property through the bursar and his dept. Subject to control by the council, the senate, which is presided over by the vice-chancellor, regulates academic matters. Its other members are the deans, the profr., the dir. of the inst. of educn., indep. hds. of depts., the librarian, 6 elected members of the non-professional staff and other reps. of fac. bds. as approved by court. To each

fac. bd. are assigned specific powers, incl. that of expressing its opinion to senate on any matter relating to the fac.

**INCOME (1960-61).** Total income, £1,427,532 (principal sources: parliamentary grants, 71.1 per cent.; fees, 21.1 per cent.; local authority grants, 3.5 per cent.; endowments, donations and subs., 5.1 per cent.; other income, 9.2 per cent.).

**FACULTIES AND DEANS** *Agric. & hort.*, Prof. J. D. Ivimey (agric.); *appl. sci.*, Prof. J. E. Parton (electr. engin.); *arts*, Prof. the Rev. Canon A. Richardson (theol.); *educn.*, Prof. M. M. Lewis (inst. of educn.); *law & soc. sci.*, Prof. J. C. Smith (law), *pure sci.*, Prof. A. W. Johnson (chem.).

**UNIVERSITY PRECINCT.** The univ. site is a park bounded by Univ. Boulevard, Clifton Boulevard, Derby Rd., and Beeston Lane. From a N.-S. ridge across the centre, the land falls to level areas on the E. & W. edges of the park. It is planned that the bldgs. of general use, incl. library and senate house, shall be grouped with the non-sci. facs. on the hill in the centre of the site. The pure and appl. sci. facs. will be on the level area to the E. Halls of residence, each with an associated group of tutors' houses, will stand on the central ridge itself and along the N. & W. perimeters. By concentrating the teaching bldgs. in groups, and by keeping the halls mainly on the edges of the site, it will be possible to preserve the park-like nature of the univ. precinct, with belts of tree-covered lawns and meadows lying between and around the groups of bldgs.

The sch. of *agric.*, comprising the fac. of *agric. & hort.*, is located 10 miles from the univ., between Nottingham, Derby and Loughborough. *Address.* Univ. of Nottingham School of Agriculture, Sutton Bonington, Loughborough (tel.: Kegworth 586).

Briggs collection of early sch. books; the D. H. Soper collection of 6200 pamphlets on paleobot.; the Sydney Porter collection of bud books, and the Cambridge drama collection. The libr. is an approved repository for memorial documents, and among the more important records are those relating to the Duke of Portland, Earl Marjess, Lord Middleton, Viscount Galway, the Hatfield Chain corp., Mellish Trustees, Newcastle Trustees and the Archdeaconry of Nottingham. Current periodicals number over 500. The main reading rooms accommodate over 400 readers. The libr. at the sch. of *agric.* contains over 13,000 vols. and periodicals, and 14,000 pamphlets.

**INSTITUTE OF EDUCATION, Univ. Park, Nottingham (tel.: Nottingham 56101) (see also "Teaching Staff", above).** The inst. is responsible for approving courses and examining students preparing to become teachers, youth leaders and tutors in adult educn. It also provides a variety of services for those engaged in educn. in the area. The constituent colls. of the inst. are the Derby, Kesteven, Lincoln, Loughborough, Maccles, City of Nottingham and Nottinghamshire County trg. colls.

**FIRST DEGREES.** All first degrees in facs. of arts and law & soc. sci. (BA, BMus, LLB) are based on 3-yr. courses. All courses are for hon. degrees, but if hon. standard is not reached a pass degree may be awarded. BA can be awarded with hon. (a) in fac. of arts, in anc. hist., classics, econ. & soc. hist., Engl., French, geog., German, Greek, hist. The hon. subjs. and the other subjs. or subjs. are read for a yrs. for pt. I final exam. after which the hon. subjs. (a subjs. for jt. hon.) is read for pt. II final exam. at end of 3rd yr. Candidates may be transferred to pass degree course, on results of pt. I final exam., also in fac. of arts, at end of 1st yr.

Hons. students in French, German, Spanish and Russian spend 3rd term of 1st yr. at an approved foreign univ.

In fac. of pure sci. courses for pass and hon. degree of BPharm and hon. degree of BSc, all 4-yr., are offered, but period is reduced to 3 yrs. if candidates are exempted from inter. exam. and course of study by reaching satisfactory standard in a G.C.E. exam. or a recog. equivalent exam.

All BPharm students follow the same courses for a yrs. after inter., and divide into pass and hon. courses for last yr.

For BSc in pure sci., all students enter for hon. courses in bot., chem., geog., geol., maths., phys., psychol., zool., or for BSc jt. hon. in bot. & zool., chem. & bot., chem. & geol., chem. & zool., geol. & geog., maths. & econ., maths. & geog., maths. & phys., maths. & phys., phys. & chem., phys. & geol., psychol. & physiol. Candidates read 3 subjs. for pt. I final exam. taken at the end of 1st post-inter. yr., on results of which they are separated into hon., jt. hon., and ord. degree courses. Students may also be transferred to ord. degree course at end of 2nd and post-inter. yr. Pt. II

final exam. is taken at end of 3rd post-inter yr. Pass degree may be awarded on hon. exam. if hon. standard is not reached.

In fac. of agric. & hort. degree of BSc is awarded after 4-yr. course, but exemption from inter. exam. and course may be granted if candidates have reached satisfactory standard in a G.C.E. exam. or recog. equivalent exam. All degree students follow same courses for 2 yrs after inter. for pt. I final exam., after which they are divided for last yr. into BSc hon. (agric. bot., agric. chem., agric. microbiol., agric. zool., agronomy, animal prodn. or hort.), BSc gen. hon. (agric. or hort. or food sci.), and BSc ord. degree (agric. or hort.).

In fac. of appl. sci. all courses are 4-yr., but exemption from inter. exam. and course may be granted if candidates have reached satisfactory standard in a G.C.E. exam. or recog. equivalent exam. The course for chem. engin., however, is 4 yrs. post-inter. The hon. ## GENERAL INFORMATION

[See below, p. 1276, under 'Publications', for pamphlets giving information about admission, residence, entrance scholarships, expenses, exams., degrees, research, etc.]

There is evidence that there existed in Oxford in the early 12th cent. schs. which by the end of that cent. had developed into a univ., a devel. perhaps helped by the fact that about the yr. 1167 Engl. students were prevented from attending the Univ. of Paris. By about 1200 there were a no. of masters lecturing on various subjs., incl. the recently recovered works of Aristotle, and in 1214 the univ. received its first recorded recognition as a body in a grant by the papal legate of certain privileges incl. reduction of the rents it paid. In the 13th cent. the coming of the friars, notably the dominicans and franciscans, strengthened the univ., especially in the theol. fac. In the same cent. the 3 first

colle. (University, Balliol and Merton) were endowed, and 12 more were founded between 1300 and 1355. During the middle ages, however, the colle. were more or less reserved for grad. fellows (as All Souls still is), and the great majority of undergrads and grads lived in a large no. of academic 'halls', or hostels, scattered about the town. The univ. at first had no bldgs. of its own, but made use of hired lecture rooms or of churches, especially St. Mary's church, until, in the 15th cent., the div. sch. was built. From the 15th cent. onwards the position of the univ. was strengthened by a succession of charters from the crown, but during the Reformation it suffered from the suppression

of the monastic colls. In 1571 the univ. was incorporated by act of parliament, and much reorgan. followed; in particular, the undergrads. now came to be included in the colls. Professorships were first endowed in the early 16th cent., and increased notably in the early 17th cent. The important code of statutes introduced in 1536 by Archbishop Laud, chancellor of the univ., remained in force, with certain modifications, for about 150 yrs. During the civil war the univ. supported the king, who made Oxford his headquarters, and parliament met there. The later 17th cent. saw an increase of sci. studies at Oxford; and towards the end of the 18th cent. the standard of studies rose as written exams gradually took the place of oral exams. The constitution was revised, as a result of the work of royal commissions, in 1854 and in 1877; coll. statutes were re-made and studies reorganized, and the professoriate was increased and re-endowed. In 1871 religious tests were abolished, and the MA degree was thrown open to non-conformists; and since 1920 women have been admitted to membership of the univ. under the same conditions as men. As a result of the work of a further royal commission, the existing constitutional arrangements were adapted in 1923 to meet the needs of the times, one result being that the univ. from then onward received an annual Treasury grant.

**CONSTITUTION.** The central policy-forming and exec. body in the univ. is the hebdomadal council, comprising the chancellor (a non-resident member, elected for life by convocation), the vice-chancellor (a coll. head nominated by the chancellor annually, usually holding office for 2 yrs., and *de facto* chairman of the hebdomadal council), the immediate ex-vice-chancellor (for 1 yr. after the expiry of his term of office) or one of the pro-vice-chancellors who has not held the office of vice-chancellor, the 4 proctors (disciplinary officers, elected annually by men's colls. in rotation), the assessors (elected annually by other socs. in rotation) and 18 members elected by congregation (see below).

Other considerable powers and responsibilities are held by the *general board of the facs.*, which comprises the vice-chancellor, the proctors, the rep. of the women's colls. and reps. of the hebdomadal council, the curators of the univ. chest, and the several facs.—theol., law, med., literae humaniores, mod. hist., Eng. lang. & lit., mediev. & mod. lang., oriental studies, phys. sci. (incl. maths.), biol. sci., soc. studies, anthropol. & geog., music, agric. & forestry, and psychol. studies—and which exercises a gen. supervision over the teaching (other than coll. teaching), res. and exams. of the univ. (exec. orgn. being in the hands of the several bds. of the facs., the bd. in each case being composed in pt. of *ex-officio* and in pt. of elected members); and by the *curators of the univ. chest*, who are responsible for the detailed financial admin. of the univ. and for the preparation of accounts and estimates.

The hebdomadal council submits proposals for the amendment of the statutes (which govern the working of the univ.), and measures for the conduct of business beyond the scope of its own authority, to the congregation of the univ., which can adopt, reject, or amend them; congregation comprises mainly the teaching and sr. admin. staff of the univ. Legislation carried by the vote of less than two-thirds of the members of congregation present and voting is referred to, and can be carried or postponed or rejected by convocation, a larger body comprising all holders of the MA and certain sr. degrees who have their names on the univ. books; convocation also confers hon. degrees, and authorizes the affixing of the univ. seal when necessary.

The COLLEGES are corporate bodies distinct from the univ.; they manage their own property, elect their own officers, have their own bldgs. and facilities (usually incl. residential accomm., dining-hall, chapel, library, sr. and jr. common rooms, and playing fields) and control the selection and admission of their own undergrads.; and the proctors have no power within their walls. They are, however, subject to the univ. statutes in certain connexions, notably presentation and audit of accounts, contributions for univ. purposes and elections to professorial fellowships; and all persons who are members of colls. are also members of the univ. and so come under the univ.'s rules. Teaching is carried out partly by way of lectures and classes held by univ. profs., readers, lectrs. and dems., partly by way of individual tuition given by coll. tutors and lectrs. (most of whom hold, in addition to their coll. posts, pt.-time univ. lectureships and are referred to on pp. 1236-1249 as Common University Fund lectrs.).

**INCOME.** The income of the univ. (not incl. the income of the separate colls.) for the year 1960-61 was £4,508,528, made up as follows: endowments, £420,860 (9.6 per cent.); pensionary grants, £2,053,678 (67.8 per cent.); fees, £293,844 (6.5 per cent.); payments for res., £577,127 (12.8 per cent.); contributions from colls., £77,461 (1.7 per cent.); other income, £75,558 (1.6 per cent.).

**FACULTIES AND DEANS.** For facs. see under 'Constitution', above. There are no deans of facs.; enquiries about admission should be addressed to the head clerk, Univ. Registry, Oxford.

**UNIVERSITY BUILDINGS.** Most of the individual colls. and halls of the univ. are centrally situated, together with the major bldgs. serving the univ. as a whole (e.g. Bodleian libr., Sheldonian theatre, Ashmolean museum, exam. schools); sci. depts. and labs. are mostly congregated in the sci. area, which is adjacent to the univ. parks and N. of central Oxford.

Bldgs. completed in recent yrs. incl. provision for agric., inorg. & org. chem., human anat., metall., microbiol., and pharmcol., an extension of the Ashmolean Museum, a gallery for casts, an

oriental inst., a hist. fac. libr., and an extension of the dept. of educn.

Devels. taking place at present or in the near future incl. bldgs. for the depts. of engin., biochem., phys., geol., an Engl. fac. libr., a law libr., an inst. of stats., and a spectators' stand at the athletics ground.

**LIBRARIES.** The principal libr. of the univ. is the Bodleian libr. (founded in 1602 by Sir Thomas Bodley), with its dependent libr. (Radcliffe sci. libr., Rhodes House libr., which deals with the hist. of the British Commonwealth and the U.S.A., and Indian Inst. libr.). It is entitled, under the Copyright Act, 1911, to a copy of every book published in Gt. Britain & Ireland, and now contains about 2,297,000 books and 50,000 MSS. **UNIVERSITY ENTRANCE REQUIREMENTS.** It should be particularly noted that although information about the univ. entrance requirements may be obtained by students both at home and overseas from the head clerk, Univ. Registry, Oxford, no person may become a member of the univ. without first securing admission to a coll. or society; and that appln. for admission to the univ. must first of all be addressed to the appropriate officer of the society to which admission is desired. Full details may be obtained from Appendix III to this volume. Advice on special problems affecting overseas students may be sought from the setg. adviser to overseas students, Univ. Registry, Oxford.

Incorporation into the univ. is open under certain conditions to undergrads. and grads. of the univs. of Cambridge and Dublin; incorporation means admission to the status (and degrees if applicable) corresponding at Oxford to that held at Cambridge or Dublin. Notice of intention to incorporate as an undergrad. must be sent to the registrar through the head of a coll., hall or society. Incorporation as a grad. (for which adequate reasons must be provided, e.g. obtaining of an educn. post in the univ., or intention to pursue a definite course of study in the univ.) is limited to holders of the BA, MA, BD, or DD of Cambridge or Dublin, of the LL.B., LL.D., MB, MD, MChir of Cambridge, and, under certain conditions, of the ScD, MusD, LittD, and PhD of Cambridge or Dublin.

**NON-MEMBERS OF THE UNIVERSITY** may be admitted to lectures given in a univ. bldg. Chest, 16-19 Wellington Sq., Oxford.

Persons qualified for sr. status (see Appendix III),

Certain fac. bds. will admit to this status only those who are members of the teaching staff of a univ. Such students are not members of the univ., but are placed under a dir. of studies and are entitled to attend lectures in univ. bldgs., to use the univ. libraries and to work in any univ. dept. or instn. subject to the agreement of the hd. of that dept. or instn. Appln. forms for this status may be obtained from the sec. of facs., Univ. Registry, Oxford. The appln. must be accompanied by evidence of degrees previously obtained, a statement of the proposed suby. of study and a cert. from a prof. or hd. of a dept. of the Univ. of Oxford supporting the appln. Admission fee of 5 gp., and tutorial fees of from £10 to £13, are payable.

The subjs. of the second public exam. consist of a pass sch. and a no. of honour schs. Every candidate for a pass BA degree must be successful in 3 of a large variety of subjs., one of the 3 being a lang. other than Engl. Every candidate for an hon. BA degree must not have exceeded a certain no. of terms from matric. and must have obtained hon. in one of the following: *literae humaniores* (philos. & anc. hist.); matha., nat. sci. **BM BCh**—men 6 yrs. This is the first degree awarded by the univ. in med., though (with very few exceptions) it may not be awarded to persons who have not first taken the BA degree, which will normally have been obtained after the first 3 yrs. by gaining hon. in certain of the subj. being studied concurrently for the BM. The last 3 yrs. of the course are devoted to clin. studies, and may be spent either in the Oxford clin. sch. or in an approved clin. sch. elsewhere. Further information from the sec. of the med. sch., Osler House, 43 Woodstock Rd., Oxford.

**HIGHER DEGREES** **MA**—open only to Oxford BAs, and awarded without further exam. after 7 yrs from matric. on payment of certain fees.

Courses of instruction in the subj. of the exams. are provided. A thesis may be offered in addition to the written work. Residence for 6 terms is required.

**BSc and BLitt**—min. 1 yr.'s study. These degrees are granted upon the satisfactory completion of an approved course of sp. study or res., pursued under supervision and for the most part at Oxford, and of at least 6 terms' residence. Applicant to enter upon such a course may be made by any person who produces sufficient evidence of his ability and either is a member of the univ. who has passed the exams. for the degree of BA, or has taken an approved degree at an approved univ., or is held by the fac. bd. concerned to be fully qualified to engage in res., or (for the BLitt only) has obtained an Oxford dipl. with distinction. A candidate for the BLitt must first undergo a probationary period of trg. in res. methods and then do a sp. piece of res. work and write a thesis, and may be required to pass a written exam. For the BSc, which is confined to the study of med., maths., nat. sci., anthropol., geog., agric., for. and psychol., no probationary period is prescribed.

**BMus**—min. 1 yr. This degree is open only to those who have been admitted to the degree of BA with 1st or 2nd class hon. in music. Candidates must pass a written exam. and submit a musical exercise for approval.

**DPhil**—mun. 3 yrs. (except that for a candidate who is a BPhil the min. is 1 yr.). This is a higher res. degree in letters or sci. presupposing prelim. trg. in res., or outstanding ability, and requiring that the candidate's work shall result in 'an original contribution to knowledge deserving publication'. It is usually required that the

In his will, Mr. Rhodes expressed the wish that 'in the election of a student to a scholarship regard shall be had to his literary and scholastic attainments; his fondness for and success in many outdoor sports, such as cricket, football,

and the like, his qualities of manhood, truth, courage, devotion to duty, sympathy for and protection of the weak, kindness, unselfishness, and fellowship; and his exhibition during schooldays of moral force of character, and of instincts to lead and to take an interest in his school-mates'. The conditions of the competition in each country or community are fixed from time to time by the trustees.

Approx. 39 scholars are assigned annually to the British Commonwealth and South Africa as follows: Australia, 6 (1 for each state); Bermuda, 1; British Caribbean, 1 (every 3rd yr. from 1961); Canada, 11 (2 each for Ontario and Quebec and 1 each for the other provinces); Ceylon, 1 (every 3rd yr. from 1958); Ghana, 1 (every 3rd yr. from 1959); India, 2; Jamaica, 1; Malta, 1; Malaya, 1 (every 3rd yr. from 1966); New Zealand, 2; Nigeria, 1 (every 3rd yr. from 1961); Pakistan, 1; Rhodesia, 3; South Africa, 8 or 9 (1 each for Cape Province, Natal, Orange Free State and Transvaal, and 1 every alternate yr. for Eastern Province, and 1 each for the following 4 schs.: Diocesan Coll., Rondebosch, Paul Roos Gymnasium, Stellenbosch, St. Andrew's Coll., Grahamstown, and South African Coll. Sch., Cape Town).

32 scholars are assigned annually to the U.S.A.—4 to each of 8 districts, awarded among candidates sent forward from each state, of which there are normally 6 in the district.

Candidates for Rhodes' scholars must be between 19 and 25 yrs. of age and unmarried. They must be citizens of the country from which they come, usually with 5 yrs.' domicile, and except in a few sp. cases must have at least a yrs.' standing at a regular degree-granting coll. or univ.

Since the scheme was inaugurated, 3505 Rhodes scholars have been elected. In the year 1961-62, 177 Rhodes scholars were in residence, 95 from the British Commonwealth and 8 Africa and 82 from the U.S.A.

## CONSTITUENT INSTITUTION

NATIONAL INSTITUTE FOR RESEARCH IN DAIRYING, Shinfield, nr. Reading (tel. Reading 83103), establd. by Ministry of Agric. & Fisheries in 1912, forms part of univ. It is governed by a bd. consisting of reps. of Ministries of Agric. and

Health, Royal Agric. Soc. of England, British Dairy Farmers' Assocn., Nat. Farmers' Union, etc. Dir.—Prof. R. G. Baskett, OBE, MSc, FRIC. See also p. 1281.

## GENERAL INFORMATION

A univ. extension coll. was opened at Reading in 1892; it was based upon the local Oxford Univ. extension centre and the local schs. of sci. and art, and derived its first impetus largely from Christ Church, Oxford. In 1902 it established a claim to a state grant as a univ. coll. In 1904 and 1905 it received endowments of land and money from the Palmer family. Wantage Hall, endowed by Lady Wantage, was built in 1908 as a residence for men students, the declined policy of the council being to make residence in a hall the rule and not the exception. An endowment fund of £200,000 was subscribed in 1911 by the benefactors already mentioned. The univ. was established by royal charter on March 17, 1926.

Various developments call for special notice. One is the establishment, in connexion with the coll. and univ., of the Natl. Inst. for Res. in Dairying. Another is the bldg. and endowment of the library, the costs of which were defrayed by Mr. Alfred Palmer and members of his family; the bldg. constitutes a memorial to the late Rt. Hon. George William Palmer, one of the chief benefactors of the coll. Residential accomm. has been increased, and the univ. now has 7 halls of residence, 3 for men and 4 for women. Further additions are being planned.

**CONSTITUTION.** The supreme governing body of the univ. is the court, presided over by the chancellor. The executive body is the council, which is composed of academic and lay members, and elects its own chairman. The senate, which consists of all profs. of the univ. and 3 elected members of the academic staff, regulates academic matters; the vice-chancellor is chairman. Facs. are controlled by their own bds., and schs. by their own citices, subd. to the authority of senate and council.

**INCOME** (excl. Natl. Inst. for Res. in Dairying) (1960–61). Total income, £590,183 (Treasury grant, 78·2 per cent; fees, 10·6 per cent; grants from local authorities, 2·1 per cent; other sources, 9·1 per cent).

**UNIVERSITY PREMISES.** The univ. has steadily grown. Because of the inadequacy of its London Rd. site, it acquired in 1947 the freehold of the Whiteknights park estate of nearly 300 acres of parkland (about one mile from centre of Reading), to which it is hoped ultimately to transfer the univ. At present 3 new bldgs. in the park are in use: the fac. of letters, opened in 1957; the dept. of phys., opened in 1960 by Sir George Thomson and named the J. J. Thomson Physical Lab.; and the res. lab. in sedimentol. (pt. of dept. of geol.).

## GENERAL INFORMATION

The Sheffield Sch. of Med., founded 1828, Fifth Coll., establd. as a coll. of arts and sci. in 1879, and the Sheffield Technical Sch., opened in 1886, were united in 1897 to form Univ. Coll., Sheffield. In 1905 the coll. became, by royal charter, the Univ. of Sheffield.

Originally dependent almost entirely on local contributions, the Univ. developed slowly in its early yrs., with the foci. of engin. and metall. in particular, benefiting from their close connection with local industry, but with a balance of student numbers largely in favour of the arts and pure sci. In recent yrs. Treasury grants have made possible all-round expansion, and since the end of the war 14 new depts. have been establd., 29 chairs created, 5 major bldgs. and considerable extensions completed, and extensive sites acquired. Particular attention has been paid to facilities for postgrad. study in the various branches of engin. and metallurgy, in a of which—glass and refractories technol.—Sheffield has the only Univ. teaching depts. in the country.

CONSTITUTION. The court, the governing body of the Univ., consists of some 605 repr. of educn. and financial interests, who receive an annual report and statement of accounts and sanction changes in ordinances. Executive control rests with the council, composed of the officers of the Univ. and repr. apptd. by court, senate, the non-professional staff, local authorities and hospes, and convocation. The senate, comprising the profs. of the Univ. and certain other academic persons, controls all academic affairs and reports to the council on academic matters requiring action by the council. Seven foci. (see below), each under its own bd., are responsible to the senate for the teaching in their various depts. The dept. of extra-mural studies and inst. of educn. report direct to the senate and the council through their bds.

The chancellor is the chief officer of the Univ. The vice-chancellor is the principal senile officer, and is, ex officio, chairman of senate.

INCOME (1960-61). Endowments, £67,404; donations and subscriptions, £52,050; grants from local authorities, £39,596; parliamentary grants, £1,418,743; students' fees, £185,277; contributions for services rendered, £221,183; other income, £9936.

UNIVERSITY PREMISES. The teaching and res. bldgs. of the facs. of arts, econ. & soc. studies, law, med. and pure sci., the sch. of soc. studies, library, staff club house, students' union and admin. offices are grouped in the Western Bank area, in close proximity to 4 of the teaching hospes. A short distance from this main group lies the St. George's Sq. block of engin. and metall. depts., and on the other side of Western Bank, linked to it by new playing-fields, the bldgs. of the dept. of glass technol. Sites now being developed, both in the neighbourhood of these groups of bldgs. and in a pleasant residential suburb about a mile away, in which the halls of residence for students are situated, will result in compact Univ. teaching and residential quarters.

### GENERAL INFORMATION

The Univ. originated in the Hartley Instn.  
which was establd. from a bequest by H. R.  
Hartley, son of a Southampton wine merchant,  
who died in 1850. The instn., opened in 1862,  
was incorporated in 1902 under a scheme of the  
Bd. of Educn. as the Hartley Univ. Coll. at  
Southampton, and from that date until the  
establd. of the Univ. students read for the external  
degrees of London Univ. The coll. was accomm.  
in the premises in the High St. built for the instn.  
until 1919 when it moved to the present site at  
Highfield, 2 mls. from the centre of the town. In  
1953 the coll. was merged in the Univ. of South-  
ampton, constituted by royal charter in 1952.

The town and port of Southampton (pop.

council. The chancellor, elected by court on  
nomination of council, is the chief officer of the  
Univ. and the pre-chancellors exercise the func-  
tions of the chancellor in his absence. The vice-  
chancellor, apptd by council, is the principal  
academic and admin. officer and is *ex-officio* chair-  
man of senate. Bds of Facs. regulate, subject to  
review by senate, the teaching of subj. assigned

staff of the Univ. form convocation which may  
report its views on any matter relating to the Univ.  
to the appropriate body.

## GENERAL INFORMATION

The idea of a Univ. Coll. of Sussex was first discussed in 1911, when it was suggested that such a coll. should be established at Brighton and recognized as a constituent part of the Univ. of London. An appeal for funds was launched and about £2000 was collected, but on the outbreak of the first world war the proposal fell into abeyance. Little further action was taken until 1955, by which time national needs were pointing to the necessity for a considerable expansion of univ. resources during the decade beginning 1961. In 1956, as the result of an approach by the Brighton Borough Council to the other local authorities in Sussex, a joint cttee. was formed to take steps to found a univ. coll. An approach was made to the Univ. Grants Cttee., which, on July 1, 1958, gave its formal approval to the establishment of the coll. The joint cttee. was then reconstituted as a regional coll. council, and the coll. obtained interim legal status when, in May 1959, it was registered under the Companies Act as a Limited Liability Company, the members of the council being the dists. of the company. In Jan. 1961, a petition was presented to H.M. the Queen praying for a royal charter of incorporation as a univ. The charter was granted and came into force on Aug. 16, 1961. The univ. opened in Oct. 1961, when the first students were admitted.

Brighton (pop. 162,757) is a holiday centre on the south coast of England, 40 miles S. of London.

**CONSTITUTION.** The univ. consists of a court, council and senate, and the usual univ. officers. Council is the governing body, powers of court being limited to election of chancellor, pro-chancellors, treasurer and some members of council. In order to guarantee satisfactory ac-

ademic standards, there is also an academic advisory cttee., which will be an integral part of the univ.'s constitution for a limited period. This cttee. consists of persons of high academic standing and has the duty of advising the council and senate on academic matters, incl. the institution of degrees, the procedure for appointing members of staff and the conduct of exams.

**INCOME.** The 5 local educn. authorities in Sussex contribute between them an annual sum of about £40,000 towards the recurrent expenditure of the univ. The Univ. Grants Cttee. meets the remaining essential recurrent expenditure. The Univ. Grants Cttee. has also set aside £2 million to provide bldgs. (other than student residences) for the univ. during the period 1960-63. A public appeal was launched at the end of 1960 to obtain funds primarily for student residences; the target was £300,000 and was reached within a yr.

**DEANS.** There are no depts in the univ., which is organized into schs.—Engl. studies, European studies, phys. scs. and soc. studies. Each sch. is presided over by a dean: *Engl. studies*, Prof. D. Daiches; *European studies*, Prof. R. J. M. Wight (European hist.); *phys. scs.*, Prof. R. J. Blun-Stoyle (theoret. phys.); *soc. studies*, Prof. A. Briggs (hist.)

**SITE AND BUILDINGS.** Work on the first 2 bldgs.—Palmer House (the social and recreational centre), and the phys. bldg.—commenced in Dec. 1960. These bldgs. should be completed by Oct. 1962. 4 more bldgs.—chem., organ., arts and library—should be completed by Oct. 1964. Two student residences, each accommodating 200

students, are being erected and financed from the appeal fund; these should also be completed in 1964. All the bldgs will be erected on the univ. site of about 200 acres at Palmer, between Brighton and Lewes. Of this, 150 acres have been leased to the univ for 999 years by the Brighton Corp., and the remainder has been purchased.

**LIBRARY.** Over 30,000 vols

**ADMISSION.** See Appendix III.

**FIRST DEGREES.** The univ has 2 facs. in arts and sci. Arts studies leading to an hon. degree of BA (taking 3 yrs) are organized in 3 schools—English studies, European studies and soc studies—the intention being to ensure that the necessary specialization is accompanied by a desirable breadth of approach, through the co-operation of different subject specialists in a common degree course. BSc degree studies include pure maths, appl maths, phys and chem. A student taking a first hon. degree in sci. will be required to study 3 of these subjs., together with some hist

or philos. or sociol., for 3 yrs, a limited number of students will be able to specialize in one of the subjs. for an extra yr. and obtain a second hon. degree. A course leading to a degree in engin. sci (without specialization) will be offered later, and biol. studies will be introduced in 1965.

**HIGHER DEGREES.** Courses leading to degrees of master and doctor are available. The MA degree requires at least 1 yr. of study or res. after the hon. degree and the PhD or DPhil degree at least 2 yrs.' study or res. after the hon. degree.

**FEES.** Annual fees (incl. registration, tuition and exams., but not students' union sub.) BA, £60, BSc, £75. Higher and 1st. degrees without lab. facilities, £60; with lab. facilities, £75. Union sub. (payable by all full-time students), £6 p.a.

**ACADEMIC YEAR.** October to June. 3 terms of about 10 weeks each.

**PUBLICATIONS.** *Prospectus*, *Annual Report*.

## GENERAL INFORMATION

The earliest recorded petition for a Univ of York was made to James I in 1617 and was followed by a petition to parliament in 1652. In 1947 a deputation from the city of York was received by the Univ Grants Cttee, and a planning cttee was set up. This was taken over by York Civic Trust in 1949 and became their academic devel. cttee. In the same yr, summer schools in hist. res. and archit. study were held. The Boothwick Inst. of Hist. Res. and the Inst. of Advanced Archit. Studies were both establd. in 1953. The academic devel. cttee moved off from York Civic Trust in 1956 and became York Academic Trust. In 1959 the trust made an informal approach to the Univ Grants Cttee, and, in Nov., York Univ Promotion Cttee, representing a wide range of local interests, was formed. In Dec. a formal approach was made to the Univ Grants Cttee and on April 19, 1960, the estab. of the univ. was officially approved. The univ.'s academic planning bd., under chairmanship of Lord Robbins, was apptd. in Sept. 1960. A public appeal for funds, primarily for the bldg. of residential accomm., was initiated in May 1962, when the univ. published its development plan. The plan covers the univ.'s first 10 years, during which it is expected that the number of students will increase from 200 to 2000, of which at least half will be resident in colls.

York (pop. 105,000) is an historical cathedral city of great architectural beauty and a busy commercial and admin. centre.

**CONSTITUTION.** A petition for a royal charter will be presented early in 1963. The charter as drafted provides for govt. by court, council, professional bd. and gen. academic bd., with the usual officers. The univ. will award its own degrees from the outset. During the early yrs. there will be an academic advisory cttee, consisting of persons of high academic standing, to guarantee maintenance of satisfactory academic standards.

**COLLEGIATE SYSTEM.** The collegiate system will be in operation from 1965. Every student and every member of staff will be attached to one of the colls., which will each have about 300 undergrad. members and will provide residential accomm. for at least half of the undergrads. and a number of academic staff and grad. students. It is hoped that there will be built up round each coll. a body of tradition and loyalty which will carry with it many of the soc. advantages of the older collegiate system without entailing its academic duplication and rigidity. Teaching will be organized centrally by the univ., and in arts subjs. will take place within the colls., rather than in separate blocks of lecture rooms.

**INCOME.** Univ. Grants Cttee. have undertaken to provide recurrent grants from Oct. 1963 and have also allocated capital grants for 1962-65.

The city of York and the 3 Ridings and other local authorities of Yorkshire have promised annual contributions of approx. £35,000. A public appeal with a target of £2 million was launched in 1962.

**SITE AND BUILDINGS.** The univ. has an initial site of 184 acres at Heslington, within a mile of the city walls. Two historic bldgs., Heslington Hall on the site, and the King's Manor in York, are being converted to provide lecture, seminar and tutorial rooms, dining-halls, library and common rooms during the first 2 yrs. The admin. headquarters of the univ. will be at Heslington Hall. The 200 students to be admitted in 1963 will use Heslington Hall, and the King's Manor will also be available in 1964. Bldg. on the site will begin in 1963, and 2 of the colls., together with the 1st sci. block and 6 dept. bldgs., will be completed by Oct. 1963. The devel. plan provides for the remainder of the accomm., which will incl. a further 6 colls., 2 sci. blocks and 15 dept. bldgs., together with a central library, assembly hall, sports centre, theatre and concert hall, to be completed in phases over the following 5 yrs. The Boothwick Inst. of Hist. Res. and the Inst. of Advanced Archit. Studies, both of which form pts. of the univ., are housed in historic bldgs. in the centre of York. Micklegate House in York is also owned by the univ. and, like the King's Manor, will probably be used as a grad. institute when the 1st new bldgs. have been completed.

**ADMISSION.** See Appendix III.

**FIRST DEGREE.** First degree courses—BA and BSc (3 yrs.)—will comprise a major subj. and one or more cognate subsidiaries. In certain circumstances, however, a degree can be obtained in one subj. only. Range of subjs. will comprise arts, nat. scis. and soc. studies, and a rigid division into facs. will be avoided. Strong emphasis will be given to the tutorial system.

It is proposed that students of proved ability should be granted a 4th yr. of tlg. leading to an MA.

**FEES.** Sessl. fee, incl. (as appropriate) registration, tuition or supervision, exam., graduation, but not fees for games, clubs, etc.: BA, MA, PhD, each £60.

**STUDENTS.** 200 students will be admitted in Oct. 1963 in arts and soc. studies only, and a further 200 in 1964. From 1965, students in sci. will also be admitted.

**RESIDENCE.** Until completion of the 1st colls. in 1965, students will live in lodgings, and the lodgings officer will give assistance in finding suitable accomm.

**PUBLICATION.** *Prospectus.*

## GENERAL INFORMATION

The univ. was founded by charter in 1893. This organized 3 univ. colls already existing in Wales into a unified system for the purpose of degree exams. As the result of an enquiry held by a royal commission in 1916-18, a supplemental charter was granted to the univ. in 1920, which introduced many changes, the most important being the estab. of a 4th constituent coll at Swansea. A further supplemental charter was granted in 1932 providing *inter alia* for the institution of the Welsh Natnl Sch. of Medicine as a sch. of the univ. At the same time a change came about in the organization of theol. teaching. Theol. had up to this point been taught only in associated theol. colls. The amendment permitted the estab. of schs of theol., which would combine the teaching resources of univ. colls. and of theol. instrns. in univ. centres. Two schools have come into being, at Bangor and at Cardiff, but theol. colls. operating on their own still survive and continue to receive recognition (at Aberystwyth, Carmarthen, Swansea, *see above*).

Cardiff (pop 255,000) is the capital city of Wales.

CONSTITUTION The supreme governing and legislative body of the univ. is the univ. court, an assembly consisting of reprs. apptd by local authorities, by the constituent and other colls and by various instrns. connected with educn. and scholarship. The univ. council is the executive body of the univ., and the academic bd. advises the council and court on all academic matters.

GRANT INCOME (1960-61)<sup>1</sup> Treasury. £3,467,112.

FACULTIES. Facs of *arts* and *sci* exist in each of the constituent colls and operate within the colls. Similarly the new facs. of *econ* and *soc. studies* (at Cardiff) and *appl. sci.* (technol.) (at Swansea) each operate in one coll. The following facs do not exist separately in the colls but only as univ. bodies, functioning on a univ. level—*archit.*, *educn.*, *lang.*, *music*, *naval sci.* (consisting mainly of profs of agric. and allied subjts), *technol.*, *theol.* (consisting mainly of recognized teachers of theol.), *med.* (the senate of the Welsh Natnl Sch. of Med.). The academic bd. is constituted mainly of single reprs. coming from all the facs.

LIBRARIES. *See* entries for constituent colls and Welsh Natnl. Sch. of Med. *below*.

THE UNIV. SCHOOL OF EDUCATION (Univ. Registry, Cardiff; tel.: Cardiff 22656), which is an *area* trig. organization, came into being in 1949 and superseded the univ. bd. for trig. colls. It is charged with the duty of surveying the general educn. needs of Wales and Monmouthshire in regard to the educn. and professional trig. of teachers, and of co-ordinating developments and directing long-term policy, so as to formulate a comprehensive system for the trig. of teachers in the area. The organization comprises the univ. educn. bd., the univ. fac. of educn. and the 4 collegiate facs. of educn. at Aberystwyth, Bangor, Cardiff and Swansea. The school awards the teacher's cert. and the art teacher's dipl.

BOARD OF CELTIC STUDIES (Univ. Registry, Cardiff; tel.: Cardiff 22656) organizes and publishes results of res. into the hist., lang., lit., laws,

customs, archaeol., art and mams. of the Celtic peoples. *Publicns.* 1. *Bulletin* half-yearly, 1. *Llen Cymru* (Journal of literary res.) half-yearly.

## GENERAL INFORMATION

Incorporated by royal charter, dated Jan. 21, 1920, the coll. was made a constituent coll. of the Univ. of Wales by a supplemental charter granted to the univ. on Aug. 13, 1920.

Swansea (pop. 160,832) is a port and univ. town on the S. Wales coast.

Income (1960-61). Total income, £663,536 (incl. univ. grant, 81 per cent.; grants for res., 3.7 per cent.; endowments, 0.5 per cent.; fees, 12.4 per cent.).

FACULTIES AND DEANS. Appl. sci., Prof. R. H. Macmillan (mech. engin.), art. H. Hall (classics); sci., Prof. H. E. Street (bot.).

UNIVERSITY PREMISES. The admin. offices, assembly hall, some common rooms and staff rooms are accom. in a mansion in Singleton Park, presented, together with about 46 acres of land surrounding it and 15 acres for playing-fields, by the corporation of Swansea, which also gave £50,000 towards the cost of sci. bldgs. Extensive labs. have been erected in the park on a site adjacent to the main coll. bldg. for the depts. of metall., engin., chem. engin., chem., and phys., and also bldgs. to accom. the arts depts., the library, the refectory and common rooms.

In 1956 the 1st stage of the new natural sci. bldg., housing the depts. of bot., zool., geol. and geog., was opened. Clyn Castle has been extensively modernized and adapted and a large dormitory annex added, as a hall of residence to accom. 100 students.

The coll. has approved a revised plan prepared by its architect for the devel. of the campus which follows the traditional univ. principle of courts and quadrangles, and provides for academic bldgs., halls of residence and admin. offices on the Singleton Park site. The new chem. bldg., the second stage of the nat. sci. bldg., and an extension to the women's hall of residence were completed in 1960. In the autumn of 1961 3 new bldgs. were ready at Singleton: a large multi-story hall of residence each to accom. over 200 men; and a handsome and spacious coll. house designed to serve as the soc. centre of the coll. community, with refectories, common rooms and other amenities. ## GENERAL INFORMATION

The Univ. of Aberdeen derives its origin and endowments from a sep., and for a long time indep., foundations. One of these was the univ. founded by William Elphinstone, Bishop of Aberdeen, under the authority of a papal bull obtained in 1494-95 at the instance of King James IV; within which univ. was afterwards founded, in 1505, the Coll. of St. Mary, subsequently called King's Coll. From this royal patronage, it was held to extend in a specially close relation to the sovereign, and is accordingly styled in acts of the Scots parliament—'our sovereign lord his college and university'. The other foundation was that of Marischal Coll. founded in 1595 by George Keith, fifth earl marischal, under a charter ratified by act of the Scots parliament. Both the above foundations were reconstituted in 1860 as 'The University of Aberdeen', which is incorporated under the Universities (Scotland) Act of 1889.

## GENERAL INFORMATION

The Univ. of Edinburgh was originally 'the Town's College', founded in 1583 by the town council of Edinburgh, under general powers granted by a charter of King James VI, dated April 14, 1582. From the first the coll. possessed the privilege of conferring degrees. This privilege was ratified by the 'act of confirmation', passed in 1621, which secured to the 'College of James VI' (as it had come to be called) all the rights, immunities and privileges enjoyed by the other univs. of Scotland. Gradually, in acts of the general assembly, of the town council, and of parliament, the 'College of James VI' came to be styled 'the University of Edinburgh'; but it remained under the control and patronage of the town council until 1858, when, by the Universities (Scotland) Act, all the univs. of Scotland received new and autonomous constitutions.

Royal (Dock) Sch. of Veterinary Studies, Summerhall, Edinburgh, 9 (tel.: Newington 6801, telegrams: Veter, Edinburgh). Founded 1823, became sch. of vet. studies within the univ., 1951 (see p. 1361).

**CONSTITUTION.** By the Universities (Scotland) Act, 1889, the univ. court was constituted a body corporate; it administers the whole univ. property. The *senatus academicus* regulates teaching and discipline; the general council is empowered to make representations to the court on all questions affecting the univ.'s prosperity. The chancellor, elected by the general council for life, is pres. of the general council and nominates an assessor in the univ. court. The vice-chancellor is nominated by the chancellor. The principal, elected by the censors for life, is pres. of *senatus*; in the absence of the rector he presides at meetings of univ. court, and in the chancellor's and rector's absence, at statutory meetings of general council. The rector, elected by matriculated students for 3 yrs, is pres. of univ. court, and appoints an assessor to it. The court comprises rector, principal, lord provost of Edinburgh, assessor nominated by chancellor, by rector and by town council; 4 assessors elected by *senatus* and 4 by general council. The *senatus* comprises principal, profs. and certain readers and lectrs. The general council consists of chancellor, members of court, profs. and grade. of univ., as well as readers and lectrs. of at least 1 yr.'s standing.

**INCOME** (1960-61). Total income, £3,064,472 (govt. grants, 75.5 per cent.; fees, 10.1 per cent.; endowments, 2.7 per cent.; other sources, 11.7 per cent.).

**UNIVERSITY PRECINCT.** In the central area of Edinburgh is the old coll., which contains the present univ. library, the univ. offices and, with adjacent bldgs., the facs. of arts and law and the dept. of phys. (The old coll. on the site of 'Kirk o' Field', the scene of the murder of Lord Darnley, was designed by Robert Adam and William Playfair, and completed in 1828). Close to this site lies the med. sch., in immediate proximity to the Royal Infirmary, with the univ. union and the Reid Sch. of Music. Immediately behind these bldgs. is George Sq., where work has already begun on a new arts bldg., and where the new univ. library and a fundamental sci. bldg. are also to be erected. Still in central Edinburgh, New Coll., which houses the univ.'s fac. of div., is situated on the Mound, overlooking Princes St. At West Mains, some 2 miles from George Sq., to the south, the King's Bldgs. provide a fine site for other depts. in the faculty of sci. The outlying depts. of bot. (at the Royal Botanic Garden) and forestry (in George Sq.) will shortly join the other sci. depts. at the King's Bldgs.

**LIBRARY.** Founded in 1582; about 800,000 vols., 35,000 MSS. The MSS. incl. the Laing MSS. and charters (chiefly Scottish), Arabic and Persian MSS. and western lit., scientific and med. MSS. Important spec. book collections are the Drummond of Hawthornden (16th-cent. lit.), Halliwell-Phillips (Shakespeare) and reformation. STUDENTS (1960-61), 276; of whom 48 were reading for univ. quals.

## GENERAL INFORMATION

The univ. was founded in 1451 by a Bull of Pope Nicholas V, on the applicn. of William Turnbull, bishop of Glasgow. It was established as a *studium generale*, with the privileges of Bologna, and its charter provided for studies in theol., canon and civil law, arts and any other lawful fac.

The business of the univ. was carried on with varying fortunes till the Reformation, when its revenues were thrown into confusion. It was given new life by Andrew Melville, who became principal in 1574. In 1577 it was reconstituted by the 'nova erectio', a charter of King James VI which was the foundation of the statutes by which the univ. was governed until the Universities (Scotland) Act, 1858.

The 'old college' was situated in the High St for more than 4 centuries; the univ. moved to its present site on Gilmorehill in 1870. Since the transference was made, a whole range of new bldgs. has come into being (see 'Univ. Precinct', below).

**CONSTITUTION.** By the Universities (Scotland) Act of 1858, as modified by the act of 1880, the univ. court, upon which senate and general council have representation, controls the finances, properties and general admin. of the univ. The senate superintends teaching and discipline; it consists of the principal (who presides) and the profs. (*ex officio*) and readers and lectrs. apptd. by the senate to a max. of one-fourth of the *ex-officio* members. The general council consists of the chancellor, the members of the univ. court and the profs. of the univ., all *ex officio*; grads of the univ. who have paid the registration fee; and (during their term of office) readers and lectrs. of more than 1 yr.'s standing. The chancellor is elected for life by the general council. The rector is elected by the matriculated students, is pres. of the univ. court, and holds office for 3 yrs. The office of principal is apptd. by the chancellor to discharge in his absence his function of conferring degrees. The office has usually been and now is held by the principal.

**INCOME (1960-61).** Total income, £3,412,628 (govt. grants, 78 per cent.; fees, 10 per cent.; endowments, 5 per cent.; other sources, 7 per cent.).

**UNIVERSITY PRECINCT.** Depts. accomm. within the univ. precincts at Gilmorehill incl. arts, div., law, med., sci. and engin., together with the library, museum, Butts hall, chapel, officers' trg. corps headquarters and the admin. offices.

The vet. sch. is accomm. outwith the precincts, at the vet. hosp., Garscube estate, and in the vet.

sch. bldg., Buccleuch St., with addnl. res. and teaching facilities at the field sta., Cochno. Teaching for the degree in agric. is provided partly in the univ. and partly in the W. of Scotland Agric. Coll. in Blythwood Sq. (see p. 1380). Med. teaching and res. facilities are provided at the Western and Royal Infirmarys, Southern General, Stobhill, Yorkhill and Dental Hospes. The engin. dept. also has res. and teaching labs in an annexe at Spencer St., Anniesland.

The original univ. precinct, extending to about 24 acres, is bounded by Univ. Avenue on the north, by Kelvingrove Park on the east and south and on the west by the Western Infirmary, and contains little possibility of further bldg. devel.

The adjacent devel. area, extending to about 26 acres, is bounded by Univ. Avenue on the south, by Bank St. on the east, by Gt. George St. on the north and generally by the Lilybank Gdn. area on the west. This area also contains few unoccupied sites immediately available for new bldgs. The univ. owns about 8 acres and is acquiring individual houses as these come on the market. An amended plan has been approved for future univ. devel. in the adjoining Hillhead area in which sites have been allocated for a number of important new bldgs. including a refectory and library.

For bldgs. recently completed or approaching completion, see p. 1384.

The **LIBRARY**, founded in the 15th century, contains over 400,000 vols., including 500 incunabula. Among its many important collections are the Bann, distinguished for the value and variety of its bibles; the Hamilton (philos. works); the Ferguson (rare bks. on the hist. of chem.); and the Pallock collection of emblem lit. bequeathed to the library in 1958. There are sep. branch libraries for chem. and vet. med. A large Reading Room serves the needs of undergrads, while there are some 70 class and dept. libraries, among the largest of which are those associated with modern langs. (opened 1960), soc. & econ. res., and the dept. of Soviet studies. The **HUNTERIAN MUSEUM**, founded in 1783, contains the Hunterian lib., the most valuable of the univ.'s collections of bks. and MSS., as well as important collections of coins, nat. preparations, zool. and mineral specimens, etc.

**LABORATORIES.** Anal., biochem., bot., chem., engin., forensic med., geog., geol., med. med., nat. philos., pathol., physiol., pub. health, virol., and zool. As Glasgow stands at the centre of the shipbldg., engin., mining and indust. area of Scotland, it offers unique opportunities for technical trg. There is a well-equipped heat engines res. establ. (Spencer St.). The nat. philos. dept. has a 340 MeV synchrotron. A computing lab. was established in 1958, having as its main equipment an English Electric computer.

There are bot. gdns., a freshwater biol. field sta. (Loch Lomond) and an **OBSERVATORY**.

**TEACHING HOSPITALS.** 5 large general hospitals (the Western, Royal and Victoria Infirmaries and the Southern General and Stobhill hosp.) are available for clinics, besides ap. instns. The dent sch. is assoc. with the Dent Hosp (Renfrew St.) The vet sch. has animal hosp. and field str.

### GENERAL INFORMATION

Founded in 1796 under the will of Prof. John Anderson, Anderson's Coll. was, in 1886, joined with the Coll. of Science and Arts (1823), the first 'mechanics' instn., itself an offshoot of the original Anderson's Coll., and with the Atkinson Instn. (1861) is the Glasgow and West of Scotland Technical Coll. From 1912 the coll. was known as the Royal Technical Coll. and in 1956 H.M. the Queen approved the title of the Royal Coll. of Science and Technol., Glasgow. The coll. was affiliated with the Univ. of Glasgow in March 1913 and was recognized by the University Grants Committee and placed on the list of univ. instns. receiving grant from the Treasury in 1919.

**CONSTITUTION** The coll. operates under the City of Glasgow Royal Coll. of Science and Technology Glasgow Scheme 1962 in terms of section 123 of the Education (Scotland) Act 1946, with a coll. council of 11 members elected by public bodies and the academic bd., 8 members co-opted by the council and the principal of the coll. The council is responsible to the Scottish Educn. Dept. for the management of all coll. affairs, academic matters are under the control of the academic bd. composed of hds. of depts. with 100s of the non-professional staff.

**INCOME (1960-61).** £985,620 (fees, 9.9 per cent.; donations, etc., 0.4 per cent.; endowments, 1.2 per cent.; parliamentary grants, 87.8 per cent.; other income, 0.7 per cent.).

**BUILDINGS** The main coll. bldg., which is situated in the centre of Glasgow, was completed in 1910. Built on a very liberal scale, it proved adequate for the expanding work of the coll. until just before 1939 when a small extension was added. Since then a major extension for mech., civil, chem., and mining engin., and a large students' union have been added and bldgs. acquired for a dept. of food sci. and the sch. of navigation. The gift of a mansion house and grounds near Glasgow in 1953 provided the nucleus of what is now a residential centre for management studies. Site work began on further extns. to occupy total island area and to house chem., chem. engin., chem. technol. and mech. engin. These should total 153,000 sq. ft. and the rehousing will give an opportunity to other depts. for much-needed expansion.

**LIBRARIES** The Andersonian libr., commemorating the founder of the coll., houses an extensive range of technical and scientific publications (over 55,000), incl. many of historical

interest, the founder's libr. and the James Young collection of early alchemical, metall. and chem. books. There are also dept. librs.

**LABORATORIES** Ample facilities for undergrad and postgrad. work of the highest standard.

**ADMISSION** Admission to courses leading to degrees of the Univ. of Glasgow is conditional upon obtaining an attestation of fitness from the Scottish Univ. Entrance Bd. (see Appendix III). The conditions for admission to associateship courses are broadly similar, except that a pass in a foreign lang. is not essential. Students wishing to read for external degrees of the Univ. of London must satisfy the admission requirements of that univ. (see Appendix III).

**Courses** Under the affiliation ordinances, the coll. provides full qualifying courses for hon. degrees of the Univ. of Glasgow in civil, mech., chem., electr., and mining engin., appl. chem., appl. chem. (metall.), appl. chem. (ceramics), pharm., archit., appl. bacteriol., food sci., textile sci., and in maths, appl. phys. for the Univ. of Glasgow and degree BSc(Tech.). For the associateship of the coll. (ARCS), courses of 4 yrs. are provided in civil, mech., electr., chem., and mining engin., naval archit., appl. chem., metall., ceramics, maths, appl. phys., pharm., food sci., microbiol., bldg. and textile technol. Entrance qualifs. for the associateship courses are given in the *Prospectus of Full-time Courses*.

**Courses (1 yr.) for coll. postgrad. dipl. in advanced studies (DRC)** are available in maths; appl. phys.; chem. process devel., polymer sci.; extractives metall.; phys. metall., mech. engin., power engin. (incl. nuclear power); predn. engin.; civil engin.; struct. engin.; environmental control engin. & resource utilization, electr. engin.; mining engin.; mining geol., appl. geophys.; pharmaceutical chem.; appl. biochem.; naval archit., food sci.; microbiol.; textile technol., town planning.

The Glasgow Sch. of Archt. is constituted by the depts. of archt. in the coll. and the Glasgow Sch. of Art under a jt. cttee. of governors, and issues dipls. in archt. (5 yrs.) and postgrad. dipls. in town planning (3 terms).

The dept. of indust. admin. in the coll., together with the dept. of business admin. in the Scottish Coll. of Commerce, form the Glasgow Sch. of Management Studies under a jt. cttee. of governors and make jt. provision of courses in personnel management (1 yr.), indust. manage-

ment (1 yr) and dipl. in management studies (4 yrs. pt-time). The coll. residential centre for management studies at 'Chesters', Bentsden, nr. Glasgow, has accomm. for 34 students. A sp. feature of the work of the centre is a series of about full-time courses for persons nominated by firms. In pt-time classes the coll. offers a very wide range of technol. courses at advanced and postgrad. level. Under the scheme of the W. of Scotland centre for technical educn., the coll. classes form the apex of an educn. pyramid, and pt-time students from all parts of the W. of Scotland can complete these courses at the R.C.S.T.

**RESEARCH.** Students can pursue res. for higher degrees of the Univ. of Glasgow and for coll. postgrad. dipl. In addn. to fundamental res., the coll. works in close co-operation with res. assocns. and industry. This is a sp. feature of coll. policy, which adds greatly to its res. resources and makes possible work on problems of current interest, sometimes on pilot plant and even larger scale. *Report on Research* publ. annually by coll.

**TUITION FEES.** Degree courses—engin., appl. chem., pharmacy and archit., associateship courses, and other non-degree courses, postgrad. courses, £75 p.a. Fees for courses in indust. admin. and for pt-time classes as shown in the relevant prospectuses.

**ACADEMIC YEAR.** Oct. to June: 3 terms of 10 wks each.

**GRADUATES AND FORMER STUDENTS' ASSOCIATION.** Formed in 1936. Copies of *Annual Report* of coll. circulated to all members and social functions arranged regularly. *Leave registers* of members kept by hon. sec. at the coll. Branches active in Glasgow, London, Newcastle upon Tyne, Birmingham, S. Africa, Canada and Norway.

**RESIDENCE.** Lochview Hall, 1083 Gr. Western Rd., Glasgow (tel. Kelvin 3262), accomm. 50 male students. Fees £3.13s.6d. per week.

**STUDENT ASSOCIATIONS.** The student body acts through the students' representative council and joins with others in the Scottish Union of Students. Sports ground at Cambuslang and usual facilities for indoor games. Mod. gymnasium, phys. trg. instn.

**PUBLICATIONS.** *Prospectus of Full-time Courses; Prospectus of Special & Advanced Classes, Bursaries, Scholarships & Prizes; Prospectus for the following: sch. of archit., sch. of navigation, 'Chesters' residential centre for management studies, Courses of Postgrad. ## GENERAL INFORMATION

The univ. founded in 1410, is the oldest in Scotland. St. Salvator's Coll. was founded in 1450 and St. Leonard's Coll. in 1512. The 3rd St. Andrews coll., St. Mary's, founded in 1537, has, since 1579, been restricted to the teaching of theol. In 1747 the colls. of St. Salvator and St. Leonard were amalgamated to form the United Coll. of St. Salvator and St. Leonard, now generally known as St. Salvator's Coll. University Coll., Dundee, founded in 1881, was in 1897 affiliated to the Univ. of St. Andrews, and at the same time the conjoint medical sch. was established in Dundee. Under the Univ. of St. Andrews Act, 1953, Univ. Coll., Dundee, and the conjoint med. sch. were merged into a new coll. of the univ. subsequently named Queen's Coll.

St. Andrews (pop. 9000) is a university town and holiday centre on the coast of Fife, 30 miles N.E. of Edinburgh.

**CONSTITUTION.** Under the Univ. of St. Andrews Act, 1953, the univ. comprises 3 colls., being unincorporated societies of teachers and students. The univ. court is a body corporate with perpetual succession and a common seal, and all the property belonging to the univ. is vested in the univ. court. The above coll. also set up the council of the United Coll. of St. Salvator and St. Leonard and St. Mary's Coll., and the council of Queen's Coll., and empowers the univ. court to delegate various functions to these councils.

The *senatus academicus* is responsible for the general supervision of teaching and discipline. The chancellor, who is elected by the general council and holds office for life, is empowered to appoint a vice-chancellor who may in his absence discharge his office in so far as regards conferring degrees but in no other respect. By a convention uniformly observed since 1858 the principal of the univ. is apptd. vice-chancellor. The rector, who is elected by the matriculated students of the univ. and holds office for 3 yrs. is the ordinary president of the univ. court; he also presides over the general council in the absence of the chancellor.

## GENERAL INFORMATION

Queen's College was established by royal charter in 1845, opened in 1849, and linked with rolls, at Cork and Galway was the Queen's Univ. in Ireland, in 1850. Originally there were three facs, arts (with sci and lit divisions), med and law. In 1879 Queen's Coll became a constituent coll of the Royal Univ. of Ireland. The governing body was the purely academic coll. council. At the turn of the century private benefactions led to increased bldgs. and additional staff. In 1908 the coll became the Queen's Univ. of Belfast, the Royal Univ. of Ireland being dissolved in the following yr. The senate became the governing body, consisting of 100s. of the public life of Ulster, of the profs. and of grads. The identification of the new univ. with the interests of Ulster became closer on the establishment in 1920 of the govt. of N. ## GENERAL INFORMATION

The univ. was incorporated by royal charter granted on April 2, 1962. It was empowered to take over the rights, property, etc., of the Univ. Coll. of the West Indies and to expend its work. Undergrads. were first admitted to that coll. in Oct. 1948. The govt. of Jamaica gave on lease for 999 yrs. a site of over 1 sq. ml. about 7 miles from Kingston. The facs. of agric. and of engin. were establd. in 1960 and 1961 respectively, and are situated at St. Augustine, some 8 miles E. of Port-of-Spain, Trinidad.

The Imperial Coll. of Trop. Agric. was founded in 1921 as the W. Indian Agric. Coll. to conduct res. and provide instructn. in trop. agric. In 1924 its name was changed to 'The Imperial Coll. of Trop. Agric.'. 2 years later the coll. was incorporated by royal charter. In March 1959 the governing bodies of U.C.W.I. and Imperial Coll. of Trop. Agric. agreed, with the approval of the fed. and unit govs., that from Aug. 1, 1960, the Imperial Coll. would be incorporated into the univ. coll. as the fac. of agric. The pro-vice-chancellor of the univ. is resident at St. Augustine.

**CONSTITUTION** The univ. is an autonomous instn. governed by a council consisting of reps. of the British Caribbean territories, the senate, and the guild of grads., as well as nominees of the chancellor. The senate consists of members of the teaching staff with the vice-chancellor as chairman.

There is a growing section of rare and current material on the W. Indies. Trinidad: about 40,000 vols. compensing for the most part the library of the former Imperial Coll. of Trop. Agric., to which is being added an engin. and gen. library.

Coll. may proceed to the degree of BA (hons. or pass) of the univ in the following subs.: maths, classics, philos., mod. lit., anc. & mod. lit., mod. hist. & pol., econ. & pol. Such students must attend lectures at Trinity Coll. for at least 1 term in the 3rd & 4th yrs. Full details on applic. to sr. tutor, Trinity Coll.

## GENERAL INFORMATION

Trinity Coll. was founded and incorporated by royal charter in 1592 as 'mater universitatis', but no other coll. has been founded, so that 'Dublin Univ.' and 'Trinity Coll.' are practically interchangeable terms. The original charter granted very full legislative powers to the provost and sr. fellows, who constituted the bd. Legislation of Charles I took away many of these powers, which were restored to the crown. By letters patent of 1911 the crown again granted wide powers of making statutes to the corporation, subject to the consent of a majority of the fellows and the approval of the visitors.

Dublin (pop. 716,156) is the capital and principal seaport of Ireland, lying on the E. coast at the hd. of Dublin Bay.

**CONSTITUTION.** The general govt. of the coll. is in the hands of the bd. of Trinity Coll., which consists of the provost, sr. fellows, 4 reprs. of jr. fellows and 2 reprs. of the non-fellow profrs. The univ. council, formed by reprs. from the bd. and various facs. and schs., has the right of nomination to most professorships, and in conjunction with the bd. can make changes in the curriculum, but otherwise has only advisory functions.

**REPRESENTATIVES IN SENIAD BERDANN.** W. B. Stanford, MA LittD; J. N. Ross, BA LLB; W. J. E. Jessop, MSc MD, FRCP.

**INCOMES (1961-62).** Total income, £567,477 (govt. grant, 37.9 per cent.; endowments, 16.6 per cent.; fees, 38.5 per cent.; payment for services, 3.7 per cent.; other, 3.3 per cent.)

The COLL. PREMISES comprise a site of 38 acres facing College Green in the centre of the city. To the W. are the older coll. bldgs., chapel, hall, library, residential bldgs., etc., most of which date from the 18th century. Further E. are the labs. and med. sch. (19th and 20th century). Between lies the spacious College Park, where the principal sporting and athletic fixtures are held. The coll. also has 20 acres of playing fields at Santry, 4 miles to the N. on the outskirts of Dublin.

The Library of Trinity Coll. has enjoyed since 1801 the privilege of receiving a copy of every book pubd. in the U.K. It contains about 920,000 printed books and over 3000 MSS. incl.

## GENERAL INFORMATION

Queen's Univ. in Ireland, founded in 1890 to link the Queen's Colls. of Belfast, Cork and Galway, was replaced in 1880 by a purely examining body, the Royal Univ. of Ireland. In 1908 the National Univ. of Ireland was established, with Univ. Coll., Dublin, and the colls. hitherto known as Queen's at Cork and Galway as constituent colls. The Queen's Univ. of Belfast (in effect Queen's Coll., Belfast, raised to univ. rank) was established in the same year, and the Royal Univ. was dissolved in 1909.

## GENERAL INFORMATION

The coll. had its origin in the Catholic Univ. of Ireland, founded in 1851. From 1851 to 1859 its rector was Dr. John Henry Newman. In 1854 its facs. of theol., philos., letters and sci. began their work and in 1855 the fac. of med. was formally opened in Cecilia St., where it continued to operate until 1932. The foundation of the Royal Univ. in 1879 led to a change of title (1883) by which what had originally been St. Patrick's House in the Catholic Univ. became the seat of Univ. Coll., Dublin. From 1883 until the passing of the Universities Act, 1908, the coll. was administered by the Jesuit Fathers. Under that act and by royal charter of Dec. 2, 1908, it was re-established as a constituent coll. of the National Univ. of Ireland.

By the University Education (Agriculture and Dairy Science) Act, 1906, the Royal Coll. of Sci. and the Albert Agric. Coll. were transferred to Univ. Coll., Dublin, which was empowered to continue the functions formerly fulfilled by these instns.

**LOCATION.** The main coll. centre is at Earlsfort Terrace (15 acres). Eight and most of the sci. depts are located at Upper Merrion St., agric. at the coll. farm, Glasnevin (about 300 acres). The future site of the coll. is at Belfield, Sillorgess Rd. (280 acres), 2½ miles from Earlsfort Ter. Here a number of res. depts., chiefly med., are already in operation and work is in progress on the sci. block. Agric. is shortly to be transferred to Lyons Farm (1300 acres), Co. Kildare, 15 miles from Dublin.

**HOSPITALS.** 3 affiliated (gen. med. & surg.), 8 recog. for clin. instrum., 2 fever; 2 children's; 3 midwifery; 1 ophthalmol. & oto-rhino-laryngol.; 1 mental diseases.

**ADMISSION.** Students not born in Ireland must apply to the pres. of the coll. for admission and (unless they have passed the matric. exam. of the N.U.I. or the Leaving Cert. of the Irish Dep't. of Educ. or the Sr. Cert. of the N. Ireland Dept. of Educ.) for exemption from the matric. exam. Exemption will be granted only on production of evidence that candidates have passed an equivalent exam. in the requisite 5 subjects.

**GENERAL INFORMATION**

Queen's Coll., Cork, was founded in 1845 and opened to students in 1849. A new charter was granted to the coll. on Dec. 2, 1908, in which its name was changed to Univ. Coll., Cork. On the same date the coll. became a constituent coll. of the newly incorporated National Univ. of Ireland.

CONSTITUTION. The main authorities of the coll. are governing body, academic council (consisting of all profs. and facs (each consisting of profs. and lectrs. in specified subjs.)). Faculties report to academic council on academic matters, incl. appts. The academic council similarly reports to governing body, and to senate of N.U.I., Dublin. The governing body is responsible for general admin. of coll. and reports to N.U.I. on appts., etc. Courses, exams and appts. are under control of the senate of N.U.I.

INCOME. Total for yr. ended June 30, 1962: £134,000 (govt. grants, 64.8 per cent.; fees, 24.0 per cent.; coll. funds, 7.4 per cent.).

UNIVERSITY COLLEGE PRECINCT. The coll. occupies a pleasant site on the western side of Cork city. The site is, however, restricted in area. Except for 2 small plots (totalling about 3 acres) it is bounded on all 4 sides by public rds; the surrounding area is fully built up on 3 sides, and expansion prospects in the remaining direction are limited in extent. The original bldg., dating from 1845, houses the admin., the central library, and the facs. of arts, comm., law and med. Civil engin. is also housed in these older bldgs. at present, but a bldg. programme, which is being planned for the next 5 to 10 yrs., will provide new accomm. therefor. The proposed bldg. programme will double the existing accomm. in the coll., providing much-needed addnl. space for all depts.

## GENERAL INFORMATION

The South African Coll., founded in 1829 as a private venture by the churches and citizens of Cape Town and its neighbourhood, was until 1874 a combined primary and secondary sch. with a tiny univ. section at the top. Although the coll. had always had a senate, it was only in 1879 that the governing power passed from the body of shareholders to a council. In 1887 College House, the first univ. residence south of the Sahara, was opened and in the same yr. the general admission of women was granted. Courses in law were added to the arts and sci. courses. From 1900 to 1918 the coll. expanded. There were the beginnings of the schs. of med., engin., and educn., the opening of the first women's residence and finally the incorporation of the coll. in the univ. which was created by Act 14 of 1916 and came into legal existence on April 3, 1918. The council took over a bequest by Sir Julius Wernher of R500,000 and a donation of equal amount from Sir Otto Beit, who added R300,000 to a lapsed bequest by Mr. Alfred Beit.

A site for the univ. was provided by govt. at Groote Schuur, Rondebosch. Over the past 40 yrs. this has been devel. (see 'Univ. Precinct and Location', below) by the erection of tutorial bldgs., several student residences and the Janneke Memorial hall. The univ. has expanded through the incorporation of the S.A. Coll. of Music, the creation of facs. of comm., soc. sci., schs. of African studies, fine art and archit., and the growth of existing facs. Further land adjacent to the site has been purchased and med. bldgs. erected. Greater expansion is envisaged in view of the post-war increase in population and rapid scientific devel.

**CONSTITUTION.** The hd. of the univ. is the chancellor; the chief academic officer is the principal, who is *ex-officio* vice-chancellor; the governing body is the council, which consists of the

principal (*ex-officio*), 5 members nominated by the govt., 6 members elected by convocation, 3 by the old students' constituency, 1 by the diocesan coll. constituency, 3 profs. by senate, and 2 members elected by Cape Town corporation. The control and management of discipline and instruction within the univ. is in the hands of the senate, which consists of the principal, the profs., 2 members elected by the council and 2 assessor members elected by the lecturers' assoc. of the univ.

Convocation, which consists of the profs. and lectrs. of the univ. and its grade, elects the chancellor, 6 members of the council, and a pres. of convocation; it may discuss any matter relating to the univ., and may communicate directly with the council or the senate.

**INCOME (1961).** Total income: R2,220,700 (govt. grants, 63.2 per cent., fees, 33.7 per cent., endowments, etc., 3.1 per cent.)

**FACULTIES.** Arts, comm., educn., engin., fine art & archit., law, med., music (incl. ballet and opera schs.), sci. and soc. sci. Deans, except of fac. of med., are apptd. annually.

**UNIVERSITY PRECINCT AND LOCATION.** The main bldgs., designed chiefly by Sir Herbert Baker, are set on the Cecil Rhodes estate, Groote Schuur, against the background of the eastern slopes of Table Mountain and Devil's Peak, approx. 5 mls. from Cape Town. The site commands a superb view. These bldgs. house all facs. except comm., med. and music, which are situated, respectively, in Cape Town, Mowbray (2 mls. from the main bldgs.) and Rosebank (4 mls. from the main bldgs.).

**LIBRARY.** 330,000 vols., 35,000 pamphlets. Includes med. libr. (42,000 vols.); music libr.—books (4,500), scores (19,000) and records (6,500); archit. libr. (6,700 vols.); Van Zyl law libr. (early Roman-Dutch law) and Bolus bot. libr. 'The

**ADMISSION TO SOUTH AFRICAN UNIVERSITIES.\***  
The qualif. for entrance to a course of study for a first degree of any univ. in South Africa is the matric. cert. of the Joint Matric. Bd. for the nine univs. in South Africa, or a cert. of exemption issued by that bd. A successful candidate at the matric. exam. may be awarded either a sch. leaving cert. or a matric. cert., depending upon the subs. passed, the standards attained in specific subs. and aggregate marks. The sch. leaving cert. is not an entrance qualif. for a course leading to a degree, although it may be accepted by the univs. for admission to courses of study leading to certain dipl. and certs.

*Approved subjects for the matric. exam.* The list of approved subs. is as follows

Section A (1) Afrikaans (H. or L.) §; (2) Engl. (H. or L.); (3) Nederlands (H. or L.); (4) German (H. or L.); (5) Bantu langs. (H. or L.); (6) Latin; (7) Greek; (8) French; (9) Hebrew; (10) Portuguese; (11) Italian; (12) matha.; (13) phys. sci. (not to be taken with 14 or 15); (14) phys.; (15) chem.; (16) biol. (not to be taken with 17 or 18); (17) bot.; (18) zool.; (19) geol.; (20) geog.; (21) hist.

Section B (22) agric.; (23) housecraft & hygiene; (24) book-keeping & comml. arithmetico; (25) shorthand & typewriting; (26) addnl. matha. (may not be taken without matha.); (27) mechanics (may not be taken with phys. or without matha.); (28) art; (29) music; (30) book-keeping [as from Nov./Dec. 1963] (not to be taken with 24); (31) typewriting [as from Nov./Dec. 1964] (not to be taken with 25)

No lang. may be taken on both the higher and the lower grade.

Candidates are required to take, at one and the same exam., not fewer than 5 or more than 7 subs., and to pass in not fewer than 3 subs. with not less than 33½ per cent. in each of the 5, and obtain a fixed min. aggregate, the aggregate for the matric. cert. being 1000 marks and that for the sch. leaving cert. being 800 marks. Candidates so passing obtain either sch. leaving cert., if the subs. passed incl. (i) an official lang. (i.e. Engl. or Afrikaans) on the higher grade and (ii) another lang. or matric. cert., if the subs. passed incl. 4 subs. in each of which the candidate has obtained the matric. standard of 45 per cent., viz. (I) an official lang. (i.e. Engl. or Afrikaans) on the higher grade, (II) the other official lang. on the higher or lower grade, or an approved Bantu lang. on the higher grade or Latin or Greek or French or

German or Italian or Portuguese or Hebrew; (III) matha. or a sci., (IV) matha. if not taken under (III) or another lang. from (II) or hist. or geog. or a Bantu lang. on the lower grade (provided that a Bantu lang. on the higher grade has not been offered under (II)) or other lang. in which the bd. decides to conduct an exam. Candidates who are awarded a matric. cert. must have either (i) included in their 4 subs. matha. or an approved lang. other than Engl. or Afrikaans or (ii) taken matha. or an approved lang. other than Engl. or Afrikaans as a 5th subj., and obtained not less than 33½ per cent. of the total marks. Note: (i) a candidate whose home lang. is a Bantu lang. may present a recognized Bantu lang. in lieu of Engl. or Afrikaans (higher grade) under (I) above. In such cases both Engl. and Afrikaans must be passed on at least the lower grade. Likewise a candidate whose home lang. is German, who is attending sch. in S.-W. Africa and whose parents are/were domiciled in S.-W. Africa, may present German (higher grade) in lieu of Afrikaans or Engl. (higher grade). In such cases the candidates must enter for both Engl. and Afrikaans, one of which must be on the higher grade, and pass in both Engl. and Afrikaans on at least the lower grade (a mark between 30 per cent. and 39 per cent. in the higher grade being recognized as equivalent to 40 per cent. on the lower grade) (ii) As from Nov./Dec. 1963 an approved lang. other than Engl. or Afrikaans will be defined as Latin, Greek, French, German or an approved Bantu lang. (iii) As from Nov./Dec. 1962 a candidate must have passed in either 2 langs. plus matha. or 3 langs. if he does not pass in matha.

The four provincial depts. of educn. in the union (Cape, Natal, Orange Free State and the Transvaal), and the Dept. of Educn., Arts and Sci., conduct exams. for a sch. cert. on syllabuses approved by the bd. These exams. are recognized by the bd. for exemption from its own matric. exam. subject to conditions prescribed by the bd.

*Faculty and departmental requirements.* Although the bd.'s matric. cert. or cert. of exemption is the normal requirement for admission to a univ., certain subs. are prescribed by the univs. as prerequisites for enrolment in some depts. or faculties. A student is advised to have a broad general educn. and to take for the matric. cert. at least 2 of the subs., matha., Latin, Greek, French, German, in addn. to both official langs., i.e. Afrikaans and Engl. Matha. is essential for agric., archt., engin., fac., med. and quantity surveying, and highly desirable for courses in accty., land surveying and sci. A knowledge of Latin of matric. standard is necessary for law. Further particulars of fac. and dept. requirements should be obtained direct from the registrars of the individual univs., not from the Joint Matric. Bd.

\* A full and official statement of the matric. requirements of the South African univs. is contained in the annual *Matric. Exam. Handbook* published by the Joint Matric. Bd., P.O. Box 592, Pretoria, South Africa. Full details of each univ.'s fac. and dept. prerequisites, which are addnl. to the Joint Matric. Bd.'s requirements, should be obtained direct from the registrars of the univ., not from the Joint Matric. Bd.

§ H.=higher grade, L.=lower grade.

**Overseas examinations.** The bd. recognizes for purposes of exemption sch. certs. issued by a number of overseas bodies if the certs. entitle the holder to unconditional admission to an approved univ. in the country of origin and the subs. passed and the standard attained are in accordance with the bd.'s regns. for its own matric. cert. As examples, a credit in a sub. for the Cambridge Overseas Sch. Cert. is accepted as equivalent to a '40 per cent. pass', and a pass in a sub. for the Higher Cert. of the Oxford & Cambridge Schs. Exam Bd and a pass at ordinary level in the General Cert. of Educn. are similarly accepted. Exemption is given sub. for sub. (Engl. lang. but not Engl. lit., is recog. as fulfilling the requirement for exemption from Engl.). The bd. is, however, not prepared to recognize a Bantu lang. of the Cambridge Overseas Sch. Cert. as equivalent to a Bantu lang. at a South African exam. The bd. may issue either a cert. of full exemption or a cert. of conditional exemption which may be converted into a cert. of full exemption if the holder fulfills specified conditions within a prescribed time. For full exemption on the strength of the Cambridge Overseas Sch. Cert. or the General Cert. of Educn. the bd.'s requirements include passes in at least 2 subs. at principal or advanced level.

Overseas qualifs. recog. by the bd. incl. 'the sch. certs. awarded by each of the 9 examining bodies in England and Wales recog. by the Ministry of Educn. for England and Wales (see p. 155a); the General Cert. of Educn. awarded, in and after 1951, by the same 9 examining bodies, the Higher Sch. Certs. of 6 of these examining bodies (i.e. Oxford & Cambridge Schs. Exam Bd; Northern Jt. Matric Bd; London Univ.; Oxford Local Exams. Delegacy; Univ. of Cambridge Local Exams. Syndicate, Central Welsh Bd.); inter exam. 1st class, of Indian univs; matric. or other entrance cert. of other approved univs; leaving cert. of educn. depts. or secondary schs. entitling holder to admission to an approved univ.; leaving certs. of educn. depts. of Scotland and Eire; Sr. Cert. of Educn. Dept., N. Ireland; Forces Prelim. exam.; passing-out exam. of Royal Naval Coll., Dartmouth; Hooft-dakte (Holland); eindexdiploma of a gymnasium or hogere burgerschool with 3 yrs' course (Holland); Akte van Bekwaamheid als Hoofdonderwijzer (Holland); dipl. of the Technische Hogeschool (Delft); eindexdiploma of the Middelbare Technische Sch. **Special exemption.** Non-matriculated candidates over the age of 23 who desire to proceed to a degree and are not eligible for exemption under the ordinary regns. may, under certain conditions, be specially exempted from matric. on the recommendation of a univ. Such candidates cannot be admitted to a degree unless they have not only completed the curriculum for the degree but have also fulfilled any other conditions for exemption from the matric. exam.

## GENERAL INFORMATION

Established by an act of 1909, Natal Univ. Coll. was opened in 1910 in the town hall and moved in 1912 to its own bldg. in the suburb of Scottsville, Pietermaritzburg. A new sci. block and a women's hall of residence were added in 1921 and a residence for men in 1928. A new wing was added in 1934 and a library and fine arts sch. in 1936. In 1926, a site of 50 acres at Stellawood, Durban, was presented by the corporation of the city of Durban, for the erection of an engin. coll., and £30,000 was donated by Mr. T. B. Davis in 1924 for this purpose. Howard Coll., as it is called to-day, was opened in Durban in 1931. A new comm. bldg., situated on a central site in the city of Durban, was added in 1936. 6 halls of residence in Durban and a hall of residence in Pietermaritzburg and tuition bldg., have been erected at a cost of over R7 million since 1945. By virtue of Act no. 4 of 1948, the Natal Univ. Coll. was incorporated as the Univ. of Natal. It came into legal existence as an independent univ. on March 15, 1949, and, in addn. to fulfilling its previous functions, is now entitled to examine its own students and grant degrees and dipl.

## GENERAL INFORMATION

Founded 1908, when univ. classes in arts, sci. and law were established at Pretoria by the Transvaal govt. and placed under the control of the council of the Transvaal Univ. Coll., Johannesburg, the constitution of that body being altered so as to give Pretoria equal representation. A separation took place in 1910, the Johannesburg section being reincorporated as the S. A. Sch. of Mines and Technol., whilst the Pretoria section retained the name of the Transvaal Univ. Coll. The facs. of agric. (1917), theol. (1918), comm. & pub. admin. (1919), vet. sci. The following facs. have been establd. since 1930: educn., med., dent., engin.

Pretoria (pop. 449,500 in metropolitan area) is the capital of the province of Transvaal and the admin. centre of the Republic of South Africa.

## GENERAL INFORMATION

The beginnings of Rhodes Univ. date from 1855, when St. Andrew's Coll. was founded at Grahamstown. For many yrs. the sch. prepared students for degree exams., as well as for the usual sch. exams. In 1878 the sch. establd a separate coll. dept. for the purpose of preparing students for the exams. of the Univ. of the Cape of Good Hope. In 1904, generous financial support from the Rhodes trustees, the citizens of Grahamstown and the public bodies of the Eastern Cape, made it possible to separate this coll. dept. from the sch., and it was incorporated by act of parliament as Rhodes Univ. Coll. The coll. continued to prepare students for the degrees of the Univ. of the Cape of Good Hope until 1916, when it became a constituent coll. of the Univ. of S. Africa. In 1946, parliament passed an act incorporating the coll. as Rhodes Univ., which came into being on March 10, 1951. From the same date (up to 1959), the S. African Native Coll. (now the Univ. Coll. of Port Hare) was affiliated to the new Univ.

The Univ. now owns an impressive array of bldgs. erected progressively since 1914 on an excellent site, the nucleus of which was donated

to the coll. by the govt. All the bldgs., which comprise admin., academic and residential blocks, are situated within easy reach of one another, and of the Univ. sports fields.

Grahamstown is a town with a population of about 32,000 of whom over half are non-white. The students of the Univ. are, however, drawn from all parts of the Union and the Fed. of Rhodesia & Nyasaland.

PORT ELIZABETH DIVISION In 1961 a div. of the Univ. was inaugurated in Port Elizabeth, a town of 270,000 inhabitants, of whom about 160,000 are non-white, situated on the coast 80 miles from Grahamstown. Tuition is offered for the BA, BCom & BSocSc degrees, the lower secondary teachn's dipl. and the cert. in the theory of accountancy; it is hoped to extend the range of courses in future yrs.

CONSTITUTION. The Univ. consists of the chancellor, the principal, who is *ex officio* the vice-chancellor, the vice-principal, who is *ex officio* the pro-vice-chancellor, the council, senate and convocation, together with the profs., lectrs., other teachers and the students.

## GENERAL INFORMATION

The Univ. of Stellenbosch had its origin in the Stellenbosch Gymnasium founded in 1866. In 1887, by private act of parliament, the arts dept. of the gymnasium was granted a charter as Stellenbosch Coll. In 1887 (the yr. of the golden jubilee) Her Majesty consented to the coll.'s being named 'The Victoria Coll. of Stellenbosch'. By the Univ. of Stellenbosch Act, No. 13 of 1916,

the coll. was incorporated on April 2, 1918, as the Univ. of Stellenbosch, and in addition to fulfilling its previous functions is entitled to examine its own students and grant degrees.

By Act No. 45 of 1926, the Elsenburg Sch. of Agric. and the fac. of agric. of the univ. were amalgamated to constitute the Stellenbosch Elsenburg Coll. of Agric. of the Univ. of Stellenbosch.

which 'shall be for all purposes the fee of agrice of the univ. and shall have all such rights and privileges and be subject to all such duties as are laid down by the Univ. of Stellenbosch Act, No 13 of 1916' By this amalgamation the fee of agrice was brought into more direct touch with practical farming.

### QUALIFICATIONS FOR ENTRY TO FIRST DEGREE COURSES:

(A) Australia . . . . .	p. 1516
(B) Canada . . . . .	p. 1526
(C) United Kingdom	
(i) Qualifications needed for admission . . .	p. 1551
(ii) Method of application . . . . .	p. 1594

#### (A) AUSTRALIA

[The statement which follows relates only to the admission of students proposing to take full courses leading to a first degree. For information regarding admission to courses leading to higher degrees, see the entries for the several univs., above.]

#### GENERAL NOTE

The primary and secondary educational systems of the Australian states are the responsibility of the various state govts. Consequently they differ in many respects. However, they are all alike in that they prepare students to the standard necessary for matric. at the univ. or univs. established in their home state. In all cases there is some liaison between the state educat. system and the univ., in that time to ensure that candidates coming forward to the univs. will be able to comply with the matric requirements.

In Australia, each univ. controls its own admission requirements. Thus the Univs. of Adelaide, Melbourne, Monash, New England, New South Wales, Queensland, Sydney, Tasmania and Western Australia, and the Australian National Univ., have individual matric requirements which are specified below.

The Australian National Univ. comprises 2 sections, namely the inst. of advanced studies and the sch. of general studies. The inst. is concerned with postgrad. res. and study and does not conduct courses leading to a first degree. The minimum academic requirement for admission as a student studying for a doctor's degree is a first degree with hon. from a recognized univ., but the inst. needs to be satisfied as to the student's capacity for res. The sch. of general studies is

responsible for courses leading to the degrees of bachelor or master.

The admission requirements of the Australian univs. have the same purpose, being designed to ascertain whether candidates are educationally fitted to undertake courses leading to a first degree. This may be done either at a public exam. open generally to secondary sch. students or at a sp. matric. exam. conducted by the univ. In some cases papers are required in sp. subjs. for entrance to the different facs., in addn to the requirements for matric.

Although the requirements for entrance to the various univs. are not uniform, all possible reciprocity is exercised in the interchange of students, whether from Australian or British univs. In general the univ. will admit to matric. *ad eundem status* a student who has matriculated or qualified to matric. at another univ. of recog. standing, but in some cases passes in particular subjs. at matric. standard, or in compulsory 'pre-requisite' subjs. for particular courses, may be required.

Sp. facilities are offered for matric. in some univs. to persons of mature age who have not had the opportunity of qualifying in the ordinary way and who pass certain sp. entrance tests.

The table opposite shows the public exams. in

each state recog. by the univs. for metric. purposes, except as indicated by \*. The exams. are fully recog. only by the univ. conducting them, though, as mentioned above, qualification by a student for metric. at the univ. of his home

state is generally recog., in so far as standards are concerned, by the other Australian univs.

The average age of entrance upon univ. study is 17 plus in most states, 18 plus in Queensland. Exams. are also conducted in music in each

Note.—The age of transfer from primary to secondary sch. varies from state to state, ranging from 12 yrs. in Victoria to 14 yrs. in Queensland

state under the general auspices of the Australian Music Exams. Bd. Passes in appropriate grades at these exams. are accepted as passes at leaving cert. standard and, consequently, for metric

purposes, in most states. In Victoria, however, the exams. are recog. for purposes of inter and leaving cert. exams. but the Univ. of Melbourne conducts its own exams. in metric music.

## SPECIFIC CONDITIONS

## ADELAIDE

The minimum age for metric is 16 yrs.

## South Australian Candidates

In general the requirements for metric. in the Univ. of Adelaide are 5 subjs. taken at the leaving exam. held annually in Nov.-Dec. and chosen from the following groups with certain subjs. specified for the various facs. as follows:

## Group A. Engl.

## Group B

- (i) Latin, Greek, French, German, and such other langs. as may be approved for metric. purposes by the council on the recommendation of the metric. bd.;  
(ii) anc. hist., mod. hist., econ. hist., econ., geog., music.

## Group C

- (i) maths. pt. I, maths. pt. II;

- (ii) phys., chem., geol., bot.,  
physiol., agric. sci.

Group D. Arith., drawing, book-keeping.

(a) To fulfil the educational requirements for matric, a candidate must

- (i) pass in at least 5 subjs. from groups A, B, C and D, above, incl. at least one subj. from each of groups B and C; provided that if either maths. pt. I or maths. pt. II is counted, arith. cannot be counted;
- (ii) include in his 5 subjs. at least one subject from section (i) of either group B or group C;
- (iii) either pass in Engl. lit. as one of the 5 subjs., or satisfy the examiners of his ability to use the lang. as an instrument of expression.

The *qualif.* in Engl. obtained by a candidate who has satisfied the examiners of his ability to use the lang. as an instrument of expression shall not count as a subject.

(b) The attention of intending candidates is drawn to the fact that, although such requirements do not form part of the general requirements for matric., in some 1st-yr. subjs. at the univ. either a pass in the corresp. subject at matric standard as prescribed for admission to the class or a knowledge of the subject at matric. standard is assumed.

Attention is drawn to the following:-

(a) *Lang. other than Engl.* At least one course in Greek, Latin, French or German is compulsory for the ord. BA degree. No candidate may take the course in Greek I, Latin I, French I or German I until he has passed in the corresp. subject at the leaving exam. or at an exam. accepted by the univ. as equivalent.

(b) *Maths.* Courses in maths. are compulsory subjects in the engin. course; further, a 1st-yr. course in maths. will for many candidates be an essential or desirable subj. in certain other courses (e.g. sci.). No candidate may be admitted to a 1st-yr. class in either until he has passed either in leaving maths. pts. I and II or in an exam. accepted by the univ. as equivalent.

(c) *Phys. and Chem.* Although a pass at leaving standard is not a prerequisite for admission to the classes in 1st-yr. phys. and chem., the syllabuses in these subjs. presuppose a knowledge of phys. and chem. at leaving standard.

(d) *Music.* Harmony II is a compulsory subject in the 1st yr. of the course for the MusBac degree, and no candidate will be admitted to the class in that subj. until he has either passed in the theory of music at the 7th grade of the public exams. in music or in a sp. entrance exam. in the theory of music of equivalent standard.

(e) *Law.* A pass in Latin at leaving standard is a prerequisite for entry to the class in Roman law, an optional subj. in the LLB degree course.

(f) *Building Sci.* The syllabus in this subj. presupposes a knowledge of chemistry at leaving standard.

### Candidates from other Australian States

Matric in any other Australian univ. is accepted provided that the subj. and grouping requirements, as prescribed for S. Australian students, are met. A candidate whose *qualif.* for matric in the univ. of his own state do not incl. one or more of the subjs. specified by Adel is required to pass in only the outstanding subj. or subjs.

Candidates from India and Pakistan are required to have passed at a good standard in their own univ.'s inter exam. in arts or sci. and to have incl. in that exam. Engl. and such other subj. or subjs. as may be prescribed for S. Australian candidates.

European or United States univ., provided that the subjects specified in the Adel. requirements are included and provided also that the cert. contains at least one mod. lang. and lit., (ii) in the case of a candidate whose native lang. is not Engl., has passed in a standard Engl. test, and (iii) has passed in the prescribed pre-requisites as follows:-

*Sci. and engin.* (and for admission to the class in 1st-yr. maths.). Either maths. I and II at the S. Australian leaving exam. or (in approved cases only) a sp. exam. in maths. of equivalent standard.

A candidate who is unable to present acceptable evidence of matric. work done elsewhere must pass in appropriate subjects at the S. Australian leaving exam.

### WESTERN AUSTRALIA

#### *General Qualifications for Matriculation*

The min. age for admission is 17 yrs. The normal method of satisfying min. entrance requirements is by means of a qualifying exam. in which candidates must pass in Engl. and 4 other prescribed subjs. The qualifying exams. incl. the Western Australian Leaving Cert. exam. held annually in Nov. and the matric. exam. conducted by the Univ. of W. Aust. in Feb. each yr. Admission to the matric. exam. is restricted to persons who seek to complete matric. requirements.

There are no sp. requirements for entrance to any fac.

(1) The subjs. for matric. are (i) Engl.; (ii) French, German, Greek, Hebrew, Italian, Latin, Spanish, or any other lang. approved from time to time by the bd.; (iii) geog.; (iv) maths. A, maths. B, music; (v) biol., chem., geol., phys.

(2) Subject to section (3) (below), in order to matric., candidates must at 1 exam. pass in Engl. and in not less than 4 other subjs. chosen from at least 3 of the groups (ii), (iii), (iv) and (v) above. For the purposes of this section the Leaving Cert. exam. and the following matric. exam. shall be counted as 1 exam., provided that only candidates who have passed in not less than 4 prescribed subjs. at the Leaving Cert. exam. shall be permitted to complete the matric. requirements at the following matric. exam.

(3) Candidates may matric. by passing at not

more than a exam. in the appropriate number of subjs. required by section (2) hereof if they have left sch. before the commencement of the yr. in which the first of such exams is taken and have since that time been gainfully employed. For the purposes of this section the Leaving Cert exam and the matric exam. shall be regarded as separate exams.

#### *Special Exemptions*

Students over the age of 21 may be admitted without passing the normal matric. exam. In the facs of arts, econ. and educn a sp. mature age exam. is held, while in the other facs. students are required to provide satisfactory evidence that they possess educn. qualifs. sufficient to enable them to take the proposed course.

#### *Candidates from outside Western Australia*

(i) Students from Australia, N.Z. and the United Kingdom. Matric. status is granted to

students qualified for matric. in any other univ. in Australia, N.Z. or the U.K.

(ii) Students from other parts of the British Commonwealth and certain Asian countries where U.K. exams are taken. Each applicant is considered on its merits. Applicants are expected to have a sufficient knowledge of Engl. lang. and to have reached a standard of educn. equivalent to that required for matric. in a univ. in the U.K. (e.g. Univ. of Lond.)

(iii) Other overseas students. Students from other countries who have qualified for matric. in approved univs. may be granted matric. status. Each applicant is considered on its merits and applicants must have a sufficient knowledge of the Engl. lang.

#### *Last Date for Receipt of Applications*

In 1963, first admission enrolments close on Feb. 6.

## (B) CANADA

(Contributed by Dr. R. P. Sheffield, Research Officer, Canadian Universities Foundation)

[The statement which follows relates only to the admission of students entering at the conclusion of secondary school studies and proposing to take full courses leading to a first degree. For information regarding admission at higher levels and to courses leading to higher degrees, see the entries for the several univs., above.]

### GENERAL NOTE

The public elementary and secondary schools of Canada are under provincial jurisdiction: each province has its own curriculum and awards its own certs. of completion of secondary school studies. Except in French Canada (*see below*), private schools are relatively few, enrol less than 5 per cent. of the elementary and secondary school population, and usually follow the public school curriculum of the province in which they are located. Courses of study which prepare for entry to univ. are of 11 to 13 yrs' duration. Secondary school graduation certs. are at two levels, one generally referred to as the *junior matriculation level* (after the 11th or 12th grade or year of schooling), and the other, involving an addnl. year of study, as the *senior matriculation level* (after the 12th or 13th grade or year of schooling).

Some univs. admit at the jr. matric. level, some at the sr. Some admit at both levels, allowing credit for one yr. of univ. studies on the basis of certs. at the sr. matric. level. Each univ. couches its entrance requirements in terms of the certs. awarded in its own province but all treat certs. of other provinces as if they were approx. equivalent to their own, differentiating only between jr. and sr. levels.

Most exams. marking the completion of high

school (secondary) studies are set and marked by the dept. of educn. of the province concerned. Three of the four Atlantic provinces (Newfoundland, Prince Edward Island and Nova Scotia) co-operate in the support of an Atlantic Provinces Examining Bd. which sets and marks exams. for each of the three provinces. The exams. differ for the various provinces, however, and the results are issued by the provinces on their own certs. rather than by the bd. An exception is made for a few private schools for which statements of exam. results are issued in the bd.'s name. In the province of Quebec there are two public examining bodies: for Catholic schools—the *Comité de Régie du certificat d'études* (of the *Comité Catholique du Conseil de l'Instruction Publique*), and for Protestant schools—the Protestant High School Leaving Bd. (of the Protestant Cttee. of the Council of Education). In Ontario, exams. at the jr. matric. level are set and marked, under the jurisdiction of the provincial dept. of educn., by individual schools, while those at the sr. matric. level are under the supervision of a Univ. Matric. Bd. composed of reps. of the major univs. of the province and reps. of the dept. of educn. In Manitoba, Saskatchewan, Alberta and British Columbia exams. are supervised jntly. by the univ. and the dept. of educn.

A number of the univ. of the Atlantic provinces set their own matric. exam. when necessary, but few students present themselves and seldom does a student take these exams in all of the required subs. In the province of Quebec the three French-lang. univs., Laval, Montreal and Sherbrooke, have extensive programmes of exams (described below). McGill Univ. sets series of papers at both jr. and sr levels, the former qualifying for the School Cert and the latter for the Sr School Cert. of the univ. The univs. of the other provinces do not set matric. exams of their own but, as mentioned above, each co-operates with the dept. of educn. of its province.

In French Canada the course leading to the *baccalauréat* (*BA*) is given in independent *collège classique* affiliated to the univ. It is of 3 yrs' duration, in two 4-year stages called *cours secondaires* and *cours collégial*. The former is comparable to the high school of English Canada and the latter to the general course in arts. Admission to the end stage is by passing the *immatriculation* exam. set by the univ. at the conclusion of the 1st yr known as *verification*, which is the 4th (final) yr. of the *cours secondaires* and the 11th yr. of schooling. Compulsory exam. subs. are: French, Engl., Latin, hist., geog., maths, and sci. Greek is optional. Recent revision of the Quebec French Catholic secondary school curriculum has made it possible for certain schools under provincial control to offer the equivalent of the 1st 4-yr. stage, the classical course preparing for *immatriculation*.

The 4 yrs of the *cours collégial* are called *belles-lettres*, *shétorique*, *philosophie I* and *philosophie II*. In colls. affiliated to Laval and Sherbrooke, univ. exams are taken at the end of the 2nd yr. (*shétorique*), and again at the end of the 4th yr. for the *baccalauréat*. In those affiliated to Montreal, exams are taken at the end of every yr. of the *cours collégial*.

In order to meet the needs of students wishing to enter certain facs. of the French-lang. univs. by routes other than that offered by the *collège classique* the Univ. of Montreal and the Univ. of Sherbrooke inaugurated within recent yrs. a one-yr. preparatory course open to grads. of other secondary schools and leading to a *certificat d'immatriculation* superior or senior.

Laval Univ. and the Univ. of Sherbrooke have *collège universitaires* in which students completing the classical course in public secondary schools may qualify for the *baccalauréat* in 4 yrs.

In 1961 there was instituted in the *collège classique* affiliated to Laval a new *cours des humanités*, 5 yrs. of secondary schooling leading to a *diplôme d'inscription* (sr. matric.), followed by a 3-yr. *collège* course to the *baccalauréat* in arts. In 1961-62 only the 1st 2 yrs. (8<sup>e</sup> and 9<sup>e</sup> années) of the new secondary course were offered, so it will be several yrs. before the new *diplôme d'inscription* will be awarded.

**College Entrance Examination Board (CEEB)** tests Beginning in 1962, McGill Univ. and Bishop's Univ. introduced the use of these tests,

requiring them of all Canadian applicants for admission—in addition to a cert. of completion of secondary school studies (see p. 1533 and pp. 1536-1538). The Coll. Entrance Exam. Bd. (New York, N.Y.), through the Educent. Testing Service (Princeton, N.J.), administers several times a yr. in many centres in the U.S.A. and Canada a scholastic aptitude test and a series of objective-type achievement tests in various subs. The results of these standardized tests are used as addnl. measures of suitability for admission to univ., often providing the basis for tentative acceptance of applicants and the award of entrance scholcs. Discussions begun in 1962 by the National Conference of Canadian Universities and Colleges may lead to general use of such tests throughout Canada.

**Language facility tests.** In 1960, the Univ. of Toronto made it a requirement that all candidates submit evidence of facility in the English lang. (see p. 1548). In 1961, most of the other English-lang. univs. began to experiment with tests of facility in English, asking that they be taken by overseas candidates whose schooling had been in another lang. If the experiment is successful, such tests are likely to be a general requirement in subsequent yrs. The tests currently in use are those administered in many parts of the world by the Univ. of Michigan and the Univ. of Cambridge. Res. begun in 1960 is expected to lead to the development and use of comparable tests of facility in French, for candidates wishing to enter the French-lang. univs.

In the table which appears on pp. 1528-1530 the most common cuts and records of marks used by official examining bodies in Canada are listed. The nos. assigned to them are referred to in the statements of requirements for admission to the various univs., which follow. The reader should be aware that some documents issued by examining bodies do not certify graduation but simply list marks obtained on exams, e.g. 'certificates' numbered 1, 2, 4, 6, 26, 27, 28. It should be noted also that some public high schools issue their own graduation dipls. or certs on bases which may or may not meet the standards set by the provincial dept. of educn., e.g. in Prince Edward Island and New Brunswick.

In order to make these individual statements somewhat comparable, four common headings are used for each English-language institution: A. Admission at the junior Matriculation level; B. Admission at the Senior Matriculation level; C. Students from Abroad and D. Last Date for Receipt of Applications. For the French-language univs., in which the terms jr. and sr. matric. have less relevance, the common headings are: A. Admission to the second stage (*cours collégial*) of the Arts programme in affiliated *collège classiques*; B. Admission to obtain degree courses in the University proper by a certificate of completion of secondary school; C. Students from Abroad and D. Last Date for Receipt of Applications.

**Minimum age at entry.** Few universities require

that candidates for admission should have reached a specified minimum age. Where there is such a requirement, it is noted.

*Required standing* Where no mention is made of required standing or average, it may be assumed in most cases that a pass standard is the minimum expected.

It should be noted that in most universities, admission to such professional schools as med., dent., law, theol., library sci., social work and educn. requires the previous attainment of a 1st degree in arts or sci. or at least a yrs. of study, beyond the jr. matric. level, in arts or sci. Reference to these is omitted except in the few cases (e.g. med. and dent. at

Toronto) where the pre-professional studies are followed in the professional school itself and where admission is normally at the conclusion of secondary school studies.

Some oft-used terms defined:

**Junior matriculation.** Eligibility for admission to univ. at the lower of the two common levels of entry. A student holding a secondary school graduation cert. may or may not have 'junior matriculation' standing, depending on the number and pattern of the subs. taken and his standing in the exams.

**Senior matriculation.** Eligibility for admission to univ. at the higher of the two common levels of entry. Involves one yr. of study beyond the jr. matric. level.

**Grade, Year.** One yr. of primary or secondary schooling, Sept. to June. Thus grade XI is the 11th yr. of schooling, 12<sup>th</sup> grade is the 12th.

**Pass or General Course.** An unspecialized univ. course, commonly leading to a bachelor's degree in 4 yrs. beyond jr. matric., or 3 yrs. beyond sr. matric.

**Honours course.** A specialized univ. course, sometimes of the same length as the pass or general course, more often one yr. longer.

**Preliminary year.** When a univ. calls the course-yr. beyond sr. matric. '1st yr.', but offers

instrucn. in a course-yr. following jr. matric., the latter is usually referred to as the 'preliminary yr.'

**First year, Second year, etc., of course.** Counting from jr. or sr. matric., depending on which is the minimum level of admission to the fac. concerned.

**Freshman, Sophomore, Junior, Senior year of course.** 1st, 2nd, 3rd, 4th yr., usually counting from the jr. matric. level.

**Subject, Paper.** In any one subject in which a candidate is examined for graduation from secondary school he may be required to write 1, 2 or (occasionally) 3 papers.

**Elective, Option.** A matric. subj. which may be chosen with more or less freedom from a list of subs., no one of which is compulsory.

**Credit.** When an entering student is given credit for a univ. subj., he is exempted from it and the number of courses required for the degree is thus reduced.

**College aptitude test.** Usually a psychological exam. of scholastic aptitude: an intelligence test or something similar.

**Mus. certificates.** Certs. required for admission to facs. of music frequently are referred to in such terms as: grade VIII practical, grade II theory. The reference is to the exams. of one or other of the conservatories of music in the region.

**U.K.** The G.C.E. is accepted as sr. matric. with standing at the advanced level in at least a appropriate subj. and at the ordinary level in the remainder of the 5 subj. prescribed for admission to the fac. concerned.

**Other Commonwealth.** Applicants from other countries of the Commonwealth are generally deemed eligible for admission if they have the standing prescribed for admission to their 'home' univ. as outlined in the *Commonwealth Universities Yearbook*.

**U.S.A.** Applicants generally must have high school graduation plus at least one full yr (the freshman yr.) of coll work with satisfactory standing in Engl., a lang. other than Engl., maths., and a of: biol., chem., phys. **Europe.** Students who have completed the requirements for admission to a European univ. are deemed eligible for admission at the sr. matric. level upon passing a special oral and written Engl. lang. exam. Such students, therefore, are not granted firm admission until they have taken up residence in Alberta and have passed this exam.

**Middle East, Asia, West Indies, South America** Because the univ. has not a satisfactory procedure for the selection of students from these areas, admission to undergrad programmes is granted only if the applicant is able to produce documentary evidence of having passed a widely recognized exam. at the sr. matric. level, such as the G.C.E. of various U.K. examining bodies, the American C.E.R.E.D. achievement tests, the Univ. of Hong Kong Matric exam., etc. In all cases the univ. will require proof of proficiency in Engl. and of financial competence.

#### D. Last Date for Receipt of Applications

Applics. for admission to courses listed in B 4 above must be received before Aug. 15 of the yr. in which admission is sought. Foreign students should apply about one month in advance of this date.

See pp. 1504-1507.

Overseas students: see also above under 'Admission of Overseas Students'.

**LIVERPOOL**

Before admission to a degree course in the Univ. a student must satisfy (a) the general requirements of the Northern Univs. Joint Matric. Bd (see above, p. 1552) and (b) any relevant course requirements (see below).

No person may register as a student who will not have attained the age of 17 yrs. on or before Dec. 31 in the yr. for which entry is sought.

*Course Requirements*

**ARTS.** Applicants for admission to a course leading to the degree of BA must have passed in Greek or Latin or maths. at the ordinary or advanced level in the G.C.E. exam.

Candidates who have qualified in maths. but not in Greek or Latin, will be required: (a) For the degree of BA in gen. studies, to take not less than 5 courses of the 9 required from the following subsj.: 'geog., econ., econ. hist., sociol., pol. theory & instn., psychol. and philos.' (b) For the degree of BA in spec. studies to present themselves in any one of the following 6 subsj.: 'geog., econ., soc. sci., pol. theory & instn., psychol., philos.'

**ARCHT.** It is desirable that applicants for entry to the sch. of archit. present 3 subsj. at advanced level in the G.C.E. exam. They must, in addition, submit evidence of ability in art.

**COMM.** For admission to courses leading to BCom there are no requirements addnl. to those of the Jt. Matric. Bd (see above, p. 1552).

**SCI.** The amount of knowledge assumed as a basis for introductory courses will be as follows, in terms of the syllabuses given in the Joint Matric. Bd. publicn. *General Cert. of Educa.*, 1961:

**Pure maths.** Maths. (A)\* or further maths. (A) or pure maths. with statistics (A) or pure maths. (A) Maths. (A) and further maths. (A) are preferred.

**Appl. maths.** Maths. (A) or further maths. (A) or pure maths. with statistics (A) or pure maths. (A) plus phys. (A)\* Maths. (A) and further maths. (A) are preferred.

**Phys.** Phys. (A).

**Chem.** Chem. (A).

**Zool.** Nil.

**Bot.** Nil.

**Geol.** Nil.

**Exemption.** Exemption from the 1st yr. of a course of study in subsj. which are to be presented at the subsidiary, normal or higher standards,

may be granted by the bd. of the fac. to candidates who have passed in the G.C.E. exam. in 3 subsj. at the advanced level and have obtained a standard deemed to be satisfactory in the subsj. concerned. These 3 advanced level subsj. need not necessarily be all scientific subsj. A standard higher than pass will be demanded in the 3 subsj. for which exemption is claimed. The syllabuses in terms of advanced level subsj. which are required for entry into the 2nd yr. of study are as follows:

**Pure maths.** Further maths. or maths. plus further maths. Pure maths for students taking subsl pure maths.

**Maths. (pure and appl.)** Further maths. plus phys. or maths. plus further maths. Pure maths. with statistics may be considered in place of maths. or further maths.

**Phys.** Maths. plus phys. or further maths. plus phys.

**Chem.** For students taking higher chem.—chem. plus phys. and maths. or further maths. or bot. or zool. or biol. or geol. Chem. for students taking normal or subsidiary chem.

**Bot.** Bot. (biol. may be considered).

**Zool.** Zool. (biol. may be considered).

**Geol.** Geol. (geog. may be considered).

Applicants proposing to satisfy univ. entrance requirements by means of passes in general studies and in 2 other advanced subsj. may find it difficult to read for an hon. degree in some schs. of the fac. in 3 yrs.

**MED.** There are no spec. addnl. requirements for entry to the fac. of med. It is not necessary for candidates to have taken sci. subjects at advanced level in the G.C.E. exam., but it is advisable that phys. and chem. should have been studied up to ordinary level, since the 1st MB courses are designed on the assumption that students have an elementary knowledge of these subsj.

**Exemption.** Passes at advanced level in phys., chem. and biol. (or bot. and zool.) may entitle a candidate to exemption from the corresp. courses and exam. of the 1st MB. A pass at advanced level in zool. will also be accepted as grounds for exemption from the courses of study and exam. of the 1st MB biol. provided passes at the advanced level in chem. and phys. have also been obtained. Every endeavour is made to admit all eligible candidates direct to the 2nd yr. of studies, but occasionally the number of eligible candidates exceeds the number of vacancies. Those who cannot secure admission to the 2nd yr. and those with partial exemption, are offered opportunities of attending courses of instruction in other facs. to broaden their general educn.

**DENT. SURG.** There are no spec. addnl. requirements for entry to the sch. of dent. surg., but it is desirable that phys. and chem. should have been studied up to ordinary level in the G.C.E. exam., as the 1st-yr. course for the BDS is designed on the assumption that students have an elementary knowledge of these subsj.

\* (A) = advanced level

**Exemption.** Candidates who have passed at advanced level in phys., chem., biol. or zool. are eligible for exemption from the corresp. courses and exams for the 1st BDS. If a candidate has passed in all these subs. at advanced level, he is eligible to commence and-yt. studies.

**LAW.** The bd. of the fac. will not regard with favour any applicant intending to become a solicitor or a barrister who, at the date of entry into the fac., does not possess the qualif. for exemption from the prelim. exam. of the Law Society or for admission as a student into one of the Inns of Court, as the case may be. Whilst not prescribing an exam. pass in Latin as an absolute essential, the bd. of the fac. regards the lack of a working knowledge of it as a handicap, particularly for the study of Roman law for the inter LL.B. course. Consequently, it is advisable for prospective applicants to acquaint themselves with the requirements of the appropriate professional body.

**ENGINEERING.** Courses in the fac. of engin. are designed on the assumption that students have some previous knowledge of pure and appl. maths., phys. and chem. Candidates are recommended to present in the G.C.E. exam. at the advanced level (c) maths. plus further maths. plus phys., (b) maths. plus phys. plus chem., or (c) maths. plus phys. plus 1 other subj. Where it is possible to present maths. with different alternatives, it is strongly recommended that an alternative which includes theoret. mechanics should be presented. All candidates are strongly recommended to study chem. to at least the ordinary level of the G.C.E. For admission into the dept. of metall., it is recommended that candidates present combination (b). Applicants from candidates with other suitable combinations of subs. will be considered.

All students entering the fac. are potential honours candidates. Separation into ordinary and honours degrees normally occurs at the end of the penultimate yr. of the course.

**Exemption.** The bd. of the fac. will be prepared to consider for exemption from the 1st yr. of study and the inter. BEng exam. candidates who have passed the exam. for the G.C.E. and whose performance in 1 of the preceding combinations of subs. is satisfactory to the bd. of the fac. Candidates who have passed the G.C.E. exam. but have not reached a sufficiently high standard for exemption from the 1st yr. of study and inter. BEng exam. may be considered for such exemption, provided that they satisfy the examiners in pure maths. and appl. maths. separately in the inter. exam. before entering the univ.

**PHY. SCI.** The bd. of the fac. requires applicants to have attained a standard not less than that of a pass in chem. at the advanced level of the G.C.E., and a standard not less than that of a pass in phys. at the ordinary level of the G.C.E.

**Exemption.** Candidates who have passed the G.C.E. at the advanced level, or an equivalent exam. at a similar standard, in any of the subs.

\* The attainment of at least Sch. Cert. credits, standard in the relevant subj., will continue to be accepted until further notice.

of phys., biol., bot. and zool. are eligible for exemption from the corresponding courses of study and exams. of the 1st BVSc exam. A pass in biol. at the advanced level gives exemption from both bot. and zool.

#### *Admission of Overseas Students*

Overseas students must apply for admission to the fac. or dept., with the exception of students from India and Egypt, who apply for admission through the following official bodies: *India*—the Educn. Office of the High Commissioner for India, Aldwych House, London, W.C.2. *Egypt*—United Arab Republic Cultural Centre, 4 Chesterfield Gardens, Park Lane, London, W.1.

Applicants from overseas students should be received by Dec. 31, and must be accompanied by detailed references certifying as to character and a detailed record of educn. qualifs. No overseas student may be registered for entry upon a degree course until he has satisfied the entrance requirements of the N.U.J.M.B. (see above, p. 1552) and has admission has been approved by the senate. Overseas students must forward with their application for admission a cert. of proficiency in written and spoken Engl., and must satisfy the bd. of the fac. concerned that they have a knowledge of Engl. sufficient for undertaking their proposed course of study. Except by spec. permission of the senate, students normally resident outside Gt. Britain will not be admitted to the univ. unless assured of adequate financial support.

forms obtainable from the tutor for admissions of the chosen coll. (from the sec. in the case of Gorton and Newnham Colls.). It is advisable to apply more than one yr. beforehand. Candidates from overseas may obtain information and advice from the adviser to overseas candidates for admission, 17 Silver St., Cambridge.

Applicants for admission must sat be submitted through the U.C.C.A.'s central office (see p. 1507).

Admission to a coll. secures admission to the univ., but no student can be admitted to a coll. unless he has satisfied the exam. requirements for matric. in the univ. of which details are given below. Completion of these requirements is not by itself a sufficient qualif. for admission to a coll., which is competitive.

There is no min. age for admission to a coll.

Many colls. have entrance exams., held once a yr., though they may admit persons (particularly overseas candidates) who have exceptional qualifs. without requiring them to take an entrance exam. Candidates for coll. scholrs. may secure admission on the results of the scholr. exam. even if they do not obtain a scholr. or exhibition. Details of coll. entrance and scholr. exams. are given in a sp. number of the *Cambridge Univ. Reporter* published annually in May and obtainable (price 6d.) from the univ. press.

#### Exam. Requirements for Matriculation

A candidate for admission will satisfy the exam. requirements for matric. if he has, in one or more exams. for the G.C.E., held by nos. 3-11\*, passed in (a) the Use of Engl., (b) 2 langs. other than Engl., (c) an approved mathematical or scientific subj., (d) one other approved subj. The candidate must have passed 2 of the subjs. under (b), (c) and (d) at advanced level, unless he holds a coll. open scholr. or exhibition. A pass in the Use of Engl. may not be counted if it was obtained more than 12 mos. before the date of the exam. in which the candidate first obtained passes in one or more subjs. at advanced level or obtained a coll. open scholr. or exhibition. A pass in the univ. supplementary exam. in the Use of Engl., or in papers prescribed as alternatives by the matric. bd., is accepted in place of G.C.E. Use of Engl., and a pass in the univ. supplementary exam. in Latin is accepted as a pass at ordinary level in a lang. other than Engl.; these supplementary exams. are held twice a yr. in Cambridge.

A candidate can alternatively, until Oct. 1, 1965, satisfy the exam. requirements for matric. if he has in, one or more exams. for the G.C.E. held by nos. 7-11\*, passed in: (a) Engl. lang., (b) Latin or classical Greek, (c) an approved mathematical or scientific subj., (d) 2 other approved subjs. The candidate must have passed 2 of the subjs. in (b), (c) and (d) at advanced level, unless he holds a coll. open scholr. or exhibition.

A candidate will be deemed to have satisfied the ordinary level exam. requirements for matric. if he has passed (in the G.C.E. subjs. specified above)

in one or more exams. for certain certs. other than G.C.E. These certs. and the prescribed standards are: no. 12\*, pass at lower standard; no. 13\*, pass in ordinary grade (a pass in higher grade is deemed to be a pass at advanced level); no. 14\*, pass at ordinary level (pass at advanced level is accepted as such); no. 16 (a)\*, pass with credit or 'very good'; no. 16 (b)\*, pass in a subsidiary or principal subj. (pass in a principal subj. is deemed to be pass at advanced level). Also Sch. Cert. awarded by West African Exams. #### Course Requirements

**LETTERS.** A candidate qualified for matric. on the G.C.E. who wishes, or who is required, to offer Latin in the 1st univ. exam., must normally have obtained a pass at advanced level in the G.C.E. in that subj. before entry. An advanced level pass in Latin is thus normally required of students intending to follow the hon. course in classics, Latin, Greek, Engl., Latin and Engl. lit., Greek and Engl. lit., or Latin and French. A candidate intending to follow the hon. course in French or Italian or a combined hon. course in mod. langs. (French and German, German and French, French and Italian, Italian and French) will normally be required to have passed in Latin at advanced level or to have passed in a mod. lang. at advanced level and in Latin at ordinary level. A candidate intending to follow the hon. course in German or in mod. hist. will normally be required to have obtained at least an ordinary level pass in Latin. A candidate intending to follow the hon. course in geog. who wishes to offer geol. in the 1st univ. exam. must have obtained an ordinary level pass in chem.

**SCI.** In general, an advanced level pass in the G.C.E. is required in any subj. to be offered in the BSc yr I course, except that the requirements for geol., microbiol., psychol., phys., properties of materials and cytobiology are covered by those of other subjs. For bot., passes in bot. and chem. are necessary; for zool., a pass in bot., and for physiol. chem., passes in bot. or zool. or bot. are alternatives.

**AGRIC.** A candidate intending to follow either the pass or hon. course in agric. or dairying or hort. is normally required to have gained, before entering the univ., one yr.'s practical experience of a type suitable to the particular course he proposes to follow. In the case of dairying, it is

preferable that 6 mos. of the period should be spent on a dairy farm and 6 mos. in a dairy factory.

#### Exemption from First-Year Courses and Exams.

**LETTERS.** No exemption from the 1st univ. exam. in arts is permissible, except for grads of approved univs.

**SCI.** The inter. course and exam. will be discontinued at the end of the session 1962-63. No exemption from the yr I course is permissible.

**AGRIC.** Pass courses are provided in agric., hort. and dairying. First univ. exam. in agric.; the course and exam. are in 2 sections, section A consists of phys., chem., bot., zool. and geol. (the syllabuses for which are the same as those for the inter. exam. in the fac. of sci.), and section B of econ. and the hist. of agric. A student may be exempted from any subj. or subjs. of section A in which he has passed at advanced level in a G.C.E. exam. (or the equivalent in the London inter. or a Higher Sch. Cert. exam. or other approved exam.) on the following conditions.

(a) In the exam. he must offer at least one and not more than three of the subjs. of section A. A student who would need to offer more than three of those subjs. would be required to spend a yrs on the course.

(b) A student intending to follow the pass course in dairying must normally offer phys. whether or not he is eligible for exemption from that subj., he is not, however, required to offer geol.

(c) A student who has obtained a pass in bot. at advanced level in a G.C.E. exam. (or its equivalent) will normally be exempted from zool. in the exam.

**Hons. courses** are provided in each of the following subjs: agric. sci., hort. sci., agric., dairying, agric. bot., hort. bot., agric. chem. (either in animal nutrition or in soil sci.), agric. econ. These courses are normally divided into vry. parts, pt I consists of the inter. exam., the subjs. of which are phys., chem., bot. and zool., save that a student following the hon. course in hort. sci. or in agric. bot. or in hort. bot. must offer geol. instead of zool. Total exemption from the inter. exam. may be granted on passes at the advanced level in a G.C.E. exam. in phys., chem., and one of the subjs. bot., zool., biol., math., but all students entering for the hon. course in agric. bot. or in hort. bot. or in hort. sci. would normally be expected to have advanced level passes in phys., chem. and bot. for total exemption. Pts. II, III and IV consist of the course for the hon. subj. which extends over 9 terms. Thus a student who obtains total exemption from the inter. exam. can complete an hon. course in 3 yrs.

3. Grads. of another univ. approved for the purpose.

4. In exceptional cases, holders of such qualifs. as shall satisfy the univ. of the high quality of the candidate and show him to be acceptable to pursue the course proposed.

#### Course Requirements

Engl. Candidates should normally have passed at advanced level in Engl. and two other subjs. It will be an advantage to offer a lang. (anc. or mod.), together with either hist., art or music.

#### Cardiff U.C.

*Fac. of Arts.* In order to be accepted for courses in Welsh, Latin, French, Spanish or hist. a student must normally have obtained a pass at the advanced level in those subjs. in the General Cert. of Educn., and in order to be accepted into courses in pure math. or appl. math. he must have obtained a pass in either pure math. or in math. (pure and appl.), but a student may be admitted to any of these courses if he satisfies the hd. of the dept. that he has obtained an equivalent standard. For certain hon. papers in *hist.*, a reading knowledge of Latin or French is required.

*Fac. of Sci.* Applicants for courses in the fac. of sci. must have (at least) a pass in math. at ordinary level.

**Swansea U.C.** For hon. in *hist* candidates must have an adequate reading knowledge of Latin, or French, or German, or Welsh. For degree courses in engin. candidates should have advanced level passes in math. and phys., and preferably also in chem. For degree courses in metall. and chem. engin. candidates should preferably have advanced level passes in math., phys. and chem.

**Welsh National Sch. of Med.** It is not a condition of entry that a student should pass in any particular subj.

#### Exemptions from Intermediate Courses, etc.

The BA hon. course is one of 3 yrs, but students may be required to spend 4 yrs. over the course. Normally 3 passes at advanced level, and sometimes 2, ensue entry to a course requiring only 3 yrs. pursuance. For entry to depts the subjs. of which are not normally taught in sch., recognition is sometimes given to passes at advanced level in subjs. which are allied or considered to be suitable equivalents.

\* *Note.*—In 1963 the following subjs. will be added to this group: on the higher grade, phys. and chem. and bot.; on the ordinary grade, biol. Biol. may not be taken (as either grade) with either bot. or zool., with this proviso a pass in sci. on the higher grade will involve passes in any 2 of the branches phys., chem., bot. and zool., obtained at one session of exam. A candidate who obtains passes in all 4 of the branches phys., chem., bot. and zool. on the higher grade will be deemed to have passed in a group II subj. on that grade, but he will not be allowed to count towards his total of such passes both phys. (as a single subj.) and sci., if the latter involves phys. as one branch (and a similar rule will apply mutatis mutandis to passes in chem. and bot. and biol. and sci.). He will be allowed to count 3 passes in group II only if one of these passes is in math.

The BSc hon. course is one of 4 yrs., but students may be exempted from the inter. course in subjs. passed at advanced level; this makes possible the completion of an hon. course in 3 yrs. Admission to the 2nd-yr. course of subjs., which cannot usually be taken at sch., may be granted by virtue of advanced level passes in subjs. regarded as allied or ancillary, e.g. admission is possible to 2nd-yr. courses in metall. and in engin. for those with advanced level passes in math., phys. and/or chem.

### SCOTTISH UNIVERSITIES ENTRANCE BOARD

Secretary: R. A. McL. Davidson, CMG, MA,  
Kinburn House, St. Andrews, Scotland

#### Summary of Qualifications for Admission to Degree Courses in Scottish Univs.

No applicant for admission to a degree course in any Scottish univ. may be accepted unless he (a) holds the Cert. of Attestation, which is issued by the Scottish Univs. Entrance Bd. to those who have proved their educn. fitness in one or other of the ways specified below and (b) possesses the specific educn. qualifs. required for the particular fac. (or curriculum within a fac.) of the individual univ. which he desires to enter (see below, pp. 1588-1593).

The Cert. of Attestation is issued by the Scottish Univs. Entrance Bd. to those who have proved their educn. fitness in one or other of the following ways:

(1) Applicants who have been admitted to an approved degree (other than honorary) of a British or recog. overseas univ. or who have obtained a cert. recognized by the Bd. as equivalent.

(2) Applicants who have obtained passes on a Scottish Cert. of Educn. which satisfy in respect of subjs., numbers and standards of pass, and sessions of exam., the following conditions:

(a) The subjs. which are recognized as qualifying are as follows. Group I: Engl. Group II\*: on the higher grade: math.; sci. (any 2 of phys., chem., bot., zool.), addnl. math. (i.e. passes at one session in 2 of the 3 papers, dynamics, geom., elem. analysis). A candidate who obtains passes in all 4 branches of sci. on the higher grade will be deemed to have passed in 2 subjs. on the higher grade. On the ordinary grade: math.; phys., chem.; bot. & zool. A pass in sci. on the lower grade (in 1961 or earlier) will be accepted as a pass on the ordinary grade in a group II subj. Group

III. Latin, Greek, French, German, Italian, Spanish, Gaelic, Hebrew, Russian. Group IV. *on the higher grade* hist., geog., music. Group V\* *on the higher grade* art, tech. subjs., phys.-with-engin.

(b) There must be (i) 4 passes on the higher grade, and at least 2 in subjs. chosen from groups II and III, or (ii) 3 passes on the higher grade, 2 at credit standard, or (iii) 3 passes on the higher grade, one at very good standard.

(c) There must be (i) a pass on the higher grade in subjs. chosen from each of 2 of groups I, II and III, and (ii) a pass on the higher or on the ordinary grade in a subj. chosen from the third of these groups.

(d) All the passes on the higher grade required to satisfy (b) and (c) (i) must have been gained either at not more than 2 separate sessions of this exam or at one session of this exam and at one session of the Scottish Univs. Prelim. Exam.

*Special Provision.*—The Scottish Univs. Entrance Bd. recognizes passes at the ordinary level of the General Cert. of Educn. Exam. as counting towards attestation in lieu of passes on the ordinary grade of the Scottish Cert. of Educn. exam, provided that the subjs. are identical.

*Note.*—The bd. has decided to fix the 'credit' and 'very good' standards at 60 per cent and 70 per cent respectively. Passes at these levels obtained at exams for the Scottish Leaving Cert. prior to 1961 will not be recognized.

(3) Applicants who present General Certs. of Educn. issued by any of the examining bodies, 3-10 § (and passes awarded by 11 § in, and after, 1959), showing that passes have been obtained (in subjs. recog. by the bd.)

A. Either in 6 subjs. (gained at any no. of sittings) which incl. (i) Engl. lang., (ii) either maths. or a recog. sci., (iii) an approved lang. other than Engl., (iv) at least 2 subjs. passed at advanced level of which one must be a subj. classified under group II or group III below (Note—No subj. may be counted both at the ordinary and at the advanced level).

B. Or in 5 subjs. which incl. (i) Engl. lang.; (ii) either maths. or a recog. sci., (iii) an approved lang. other than Engl., (iv) at least 2 subjs. passed at advanced level, of which one must be a subj. classified under group II or group III below, and the 3 from not fewer than 2 groups. (Note.—(i) no subj. may be counted both at the ordinary and at the advanced level, (ii) 3 passes must have been gained at one and the same sitting, of which 2 must be at the advanced level and the 3 from not fewer than two separate groups.)

*Explanatory Note.*—An applicant presenting a G.C.E. is required to qualify entirely by

passes in that exam. and may not supplement or substitute for them passes in the Scottish Univs. Prelim. Exam. The one exception is contained in the and option under C below; but this option is open only to those who have the qualifs. for matric. at a univ. (other than Oxford or Cambridge) located in England or Wales, and have qualified for matric. in subjs. recognized by this bd.

C. Passes which collectively satisfy the conditions set out under A or B above in all respects other than .

(1) in either A or B, the absence of a pass at the advanced level in a subj. of group II or group III, or (2) under B, the absence of a third pass at the advanced level,

may be supplemented by a pass in an appropriate subj. gained either (i) at the advanced level in a subsequent G.C.E. exam; or (ii) on the higher grade in the Scottish Univs. Prelim. or Scottish Cert. of Educn. exams.

The subjs. recog. by the bd. are as follows: Group I. Engl. lang., Engl. lit., geog.; anc. hist., mod. hist. Group II. 1. maths. Group III: (a) Latin, Greek, French, German, Italian, Spanish; Gaelic, Hebrew, Russian, and, at the advanced level only; (b) Afrikaans, Arabic; Bulgarian; classical Chinese, classical Japanese; Czech; Danish; Dutch, Finnish; Hausa; Hindi, Hungarian, Icelandic, Irish, mod. Greek, Norwegian, Pali, Persian; Polish; Portuguese; Roumanian, Sanskrit, Serbo-Croat, Sinhalese, Swahili, Swedish, Tamil, Turkish; Urdu; Welsh. Group IV\* art; music. (Note.—(a) The bd. does not recognize as an advanced level pass in Latin or Greek a pass obtained in an exam in which the candidate has not offered both translation from and composition in the lang. (b) Classical Greek and mod. Greek are mutually exclusive for purposes of attestation, as are Hindi and Urdu and Afrikaans and Dutch. Candidates offering Hindi must use the Devanagari script; those offering Urdu must use the modified Persian script.

The bd. does not recognize agrotist passes awarded by any of the examining bodies 3-11 §

In and after 1964 the bd. may cease to recognize advanced level passes for the purpose of its regns.

\* *Notes.*—(1) A pass in phys.-with-engin. will not be accepted together with a pass in tech. subjs. nor with a pass in higher sci. which incl. phys., nor with a pass in higher phys. as a single subj. in the prelim. exam. (2) A pass in phys.-with-engin. will be regarded as a pass on the higher grade in a subj. of group II if it is supplemented by satisfactory performance in any one of chem., bot., zool. (and biol. from 1963) taken on the higher grade, either at the same session of the exam. or consistently with (4) below.

1 See p. 1552.

unless they are obtained at some prescribed grade above that of the minimum pass mark

*Note 1.*—(a) The following will be treated as if they were passes at the ordinary level: (i) a very good pass or a pass with credit, obtained in a Sch. Cert. exam incl. the W. African Sch. Cert. and Sudan Sch. Cert. exams; (ii) a pass in a subsidiary subj. for an advanced standard obtained in a Higher Sch. Cert. exam; (iii) a pass at ordinary standard in a London metric exam; (iv) a very good pass or a pass with credit, obtained in the Sr Sch. Cert. exam or the G.C.E. exam at the Educ. Dept. of Ceylon; (v) a pass obtained in the Higher Sch. Cert. exam of the Educ. Dept. of Ceylon; (vi) a pass at the ordinary or at the advanced level in the metric exam of the Univ. of Hong Kong. (b) The following will be treated as if it were a pass at the advanced level: a pass at main or principal standard obtained in a Higher Sch. Cert. exam. *Note.* A complete pass in the prelim. exam. of coll. in sp. relation with the Univ. of London, that is, passes in 3 recog. subj. at one session of exam., will be deemed to count as an advanced level pass towards attestation.

#### Other Recognized Examinations

(4) A Sr. Cert. of the Ministry of Educ., N. Ireland, issued in 1952 or later, will qualify for the bd.'s cert. of attestation if it contains passes in at least 6 subj., recog. by the bd., incl. Engl. lang.; Engl. lit.; a lang. other than Engl. and a mathematical or scientific subj., on condition that at least 3 of the passes are at the advanced level, one of these 3 being either in a lang. other than Engl. or in a mathematical or scientific subj. (the bd. recognizes gen. math. and appl. math. as separate subj., but not pure math.), and that all 6 passes have been gained at not more than two separate sessions of exam. A sr. cert. gained at one session of exam. may be supplemented by a pass or passes gained at one session of the metric exam. of the Queen's Univ. of Belfast; a pass in this exam. will count as the equivalent of a pass at the advanced level in a cert. of 1952 or later yr. An applicant who has passed at not more than two sittings the metric exam. of the Queen's Univ. of Belfast in Engl. math., a lang. other than Engl., and in 2 other subj. incl. in the groups mentioned in (3), qualifies for attestation.

(5) Passes at 70 per cent, or better, shown in a cert. qualifying the applicant for entry on a degree course in arts, pure sci. or med. at a recog. univ. of the Republic of Ireland, Canada, Australia, New Zealand or of the Republic of South Africa, if they are in subj. recog. by the bd., will count (i) as passes at ordinary level if the holder completes his qualifs. by means of the G.C.E. exam. (clause (3) above), or (2) as passes on the ordinary grade if he completes by the Scottish Univ. Prelim. Exam. at not more than 2 sessions of that exam. Alternatively a cert. signed by the registrar of a recog. univ. in these countries

stating that the applicant has completed satisfactorily the first 2 yrs. of a course leading to a degree in arts, pure sci. or med., and has duly passed in all the subj. of his course up to that point, will qualify for the Cert. of Attestation. The bd. will not consider applicants from persons who have failed to pass all the relevant exams. of the first 2 yrs. of an approved degree course, unless they can demonstrate that their failure is attributable to sp. circumstances, e.g. prolonged illness. In all such cases, applicants must submit full details accompanied by appropriate official evidence.

(6) Evidence of the satisfactory completion of the 2nd yr. of a course leading to a degree in arts or pure sci., or of the pre-med. course, of a univ. or coll. in the U.S.A. (other than a jr. coll.) appearing in the current list publ. by the American National Ctr. of Regional Accrediting Agencies, will qualify for the bd.'s Cert. of Attestation if the applicant's academic record shows grades averaging not below B in each of the following subj. as have been incl. in the first 2 yrs. of his academic course: Engl., foreign langs., maths (pure and appl.), sci., hist., geog., art and music.

(7) A sch. leaving, metric, or univ. entrance cert. awarded in any one of the countries named below and qualifying unconditionally for entrance on a course leading to a degree in arts, pure sci. or med. in a recog. univ. of that or an adjacent country, is acceptable: (a) if it contains passes of satisfactory (or higher) grade in 6 of the subj., detailed in para. (3) above, and these incl. (1) the lang. of the country issuing the cert., (2) a recog. lang., and (3) either maths or a recog. sci., all 3 gained in the written exam.; and (b) if at least 2 of these passes (which must incl. Engl. or a subj. of group II or group III taken in the written exam.) are graded as 'very satisfactory', and (c) on condition that it is supplemented by (1) a London Univ. or Cambridge Cert. of Proficiency in Engl.; or (2) a pass in Engl. on the ordinary grade in the Entrance Bd.'s prelim. exam.; provided that exemption from this condition will be granted if the grade 'very satisfactory' has been awarded in Engl. (written and oral). A cert. that fails to satisfy clauses (a) and (b) of this rule for want of a 6th subj., or in respect of the grade of pass required in one subj. only, may be made good by a pass on the requisite standard in an appropriate subj. obtained either (i) at a subsequent session of the original exam., or (2) in the Entrance Bd.'s prelim. exam., in which the pass must be on the higher grade; or (3) in the English G.C.E. exam., in which the pass must be at the advanced level.

The countries are: Norway, Sweden, Denmark, Iceland, Finland, Holland, Belgium, France, Luxembourg, Switzerland, Western Germany, Italy, Spain and Portugal.

(8) The bd. may at its discretion attest an applicant whose qualifs. do not fulfil precisely any one of sections (5)–(7), if it is satisfied that his educat. attainments as a whole are not inferior to those required by the rules in these sections.

APPENDIX A: List of Approved Languages  
(see section (3) above)

Latin, Greek, French; German, Italian; Spanish, Gaelic, Hebrew, Russian; and, in addition, the following langs.: Afrikaans; Arabic, Bulgarian, classical Chinese, classical Japanese, Czech, Danish, Dutch; Finnish; Hausa; Hindi, Hungarian, Icelandic, Irish, mod. Greek; Norwegian; Pali, Persian, Polish; Portuguese; Roumanian; Sanskrit; Serbo-Croat; Sinhalese; Swahili, Swedish; Tamil; Turkish; Urdu; Welsh

(9) SCOTTISH UNIVERSITIES PRELIMINARY EXAMINATION.\* (i) These rules regulate the conditions upon which passes in the Scottish Univs. Prelim. exam. will qualify for the bd.'s Attestation of Fitness, and the rules formerly in force are revoked. A pass awarded (in 1961 or previously) on the lower grade will be accepted as a pass on the ordinary grade.

(ii) The subjs. included in the Prelim. Exam. are the following: Group I: Engl. Group II: on the higher grade: maths, phys., chem.; sci. (any 2 of phys., chem., bot., zool. and geol.); addnl. maths. (i.e. passes at one session in 2 of the 3 papers, dynamics, geom. and elem. analysis). A candidate who passes in any 4 branches of sci. on the higher grade will be deemed to have passed in a subjs. on the higher grade. A pass in higher phys. as a single subjs. will not be accepted along with a pass in higher sci. which includes phys. as a branch. A similar rule *mutatis mutandis* applies to higher chem. If there are 3 passes in subjs. selected from group II, one of these passes must be in maths. On the ordinary grade: maths, phys., chem.; bot.; zool. Group III: (a) Latin; Greek, French; German; Italian; Spanish; Gaelic; Hebrew; Russian, and (b) on the higher grade at credit standard: Afrikaans, Arabic; Bulgarian, classical Chinese; classical Japanese; Czech; Danish, Dutch; Finnish; Hausa, Hindi; Hungarian, Icelandic, Irish; mod. Greek, Norwegian; Pali, Persian; Polish; Portuguese; Roumanian; Sanskrit; Serbo-Croat; Sinhalese; Swahili, Swedish; Tamil; Turkish; Urdu; Welsh. Note.—Classical Greek and mod. Greek are mutually exclusive for purposes of attestation, as are Hindi and Urdu and Afrikaans and Dutch. Candidates offering Hindi are required to use the Devanagari script; those offering Urdu are required to use the modified Persian script. Group IV: on the higher grade: hist.; geog.; music.

(iii) There must be: (a) 4 passes on the higher grade, including at least 2 from subjs. chosen from groups II and III; or (b) 3 passes on the higher grade, 2 at credit standard; or (c) 3 passes on the higher grade, one at very good standard.

(iv) There must be: (a) a pass on the higher grade in subjs. chosen from each of 2 of groups I, II and III; and (b) a pass on the higher or on the

ordinary grade in a subjs. chosen from the third of these groups.

(v) All the passes on the higher grade required to satisfy (iii) and (iv) (a) above must have been gained either at not more than 2 separate sessions of this exam. or at one session of this exam. and at one session of the Scottish Cert. of Educn. exam.

*Special Provision.* The Scottish Univs. Entrance Bd. recognises passes at the ordinary level of the General Cert. of Educn. exam. and on the ordinary grade of the Scottish Cert. of Educn. exam. as counting towards attestation in lieu of passes on the ordinary grade in the Scottish Univs. Prelim. exam. provided that the subjects are identical.

*Note.*—A candidate whose native lang. is other than Engl. and who can show that the bulk of his secondary educn. has been conducted through the medium of a lang. other than Engl. will be deemed to have passed on the higher grade in Engl. if he produces evidence that he has passed in all 3 sections of the Cert. of Proficiency in Engl. awarded by the Cambridge Local Exams. Syndicate or the Univ. of London and may be deemed to have passed on the ordinary grade if he produces evidence to show that he has passed in 2 of the 3 sections.

(10) Applicants who are not less than 23 years of age applying for exemption from the whole or from part of the requirements of the foregoing regts. must furnish to the bd. a satisfactory reason for their not having qualified in the ordinary way at the normal time and must make it clear that there have been obstacles in the way of their satisfying one of the regular tests. The bd. must be satisfied that an applicant's educn. at sch. and subsequently has been of a sufficiently general and liberal character and of his present fitness to enter upon the curriculum for a degree. As a rule an applicant will be asked to submit a cert. from his former headmaster showing to what stage his educn. had advanced and what subjs. it embraced.

## ABERDEEN

Before admission to a degree course in the univ. a student must satisfy (a) the general requirements of the Scottish Univs. Entrance Bd. (see above, p. 1585) and (b) any relevant course requirements (see below).

There is no min. age limit for admission to the univ.

## II. METHOD OF APPLICATION

### *The Central Office for University Admissions (see also p. 890)*

1. The univs. have estab'd a central organization to handle the applns. submitted by candidates for admission to first degree and first diploma courses at participating univs. (see p. 1596). This central office is controlled by a central council (the Universities Central Council on Admissions) representative of all the participating univs. A summary follows of the scheme of operation prepared by the U.C.C.A. and accepted by the univs. The scheme described below applies only to applicants permanently resident in the United Kingdom. Overseas applicants for admission to univs. in the U.K. in Oct. 1963 or Oct. 1964 must continue to apply, as at present, either direct to the univ. in which they are interested, or through their normal channels, whichever is required by that univ.'s regns.; they should not apply through the central office. It is, however, hoped to introduce a scheme in which overseas applicants for admission to U.K. univs. in Oct. 1965 will submit their applns. through the central office at some time between Sept. 1964 and the spring of 1965.

2. The scheme, as described below, will come into operation in 1963-64 for candidates entering univs. in Oct. 1964.

3. Outline of the scheme (for candidates entering universities in Oct. 1964):

(a) A candidate must obtain prelim. information about entrance requirements, courses of study, etc., either through his school, or direct

from any univ. to which he chooses to write; the univ. will in turn ask the candidate to obtain an appln. form either from the headmaster or headmistress, or if he has left school, from the central office, and to apply for admission through the central office.

(b) The central office will receive, between Sept. 1, 1963, and Dec. 31, 1963, applns. for admission in Oct. 1964 from students permanently resident in the U.K.

(c) A candidate will be asked on the appln. form issued by the central office to name up to four univs. to which he wishes to apply, he may either list these in order of preference, or state that he has no preference among them, or name the univ. of his first preference and state that he has no preference among the remainder.

(d) The central office will make photographic copies of the applns., which will include a confidential report from the headmaster, headmistress or other referee. These will be simultaneously issued to all the univs. named in the appln.

(e) Each univ. concerned will then deal with the appln., interview the candidate if so desired and make any further contact with the school which seems necessary.

(f) The univ. named at first and second choice by the candidate will be asked to inform the candidate through the central office by March 25 at the latest of one of the following decisions.

(i) an unconditional offer;

(ii) a *quash/ynq* offer, i.e. an offer conditional only upon the candidate's satisfying, the

\* The scheme of course applies to candidates of both sexes.

† A candidate will be allowed to change his order of preference, and his change of mind may be reflected in the manner in which he replies to an offer (see p. 1596).

- univ's entrance requirements for the course desired, expressed in terms of no more than a pass in each of the required exam. subs ;
- (iii) a *conditional offer*, i.e. an offer made subject to the attainment of a specified standard of performance in the General Cert of Educn or other qualifying exam ;
- (iv) a *decision to put the candidate on a waiting list* and to defer further consideration until a later date ;
- (v) a *spectator* ;
- (g) Univs. named by a candidate as those and fourth choice will be able to take similar action before or after March 25, but they will be asked to inform the candidate through the central office not later than July 25
- (h) All the univs. named by a candidate will be informed by the central office of decisions made by other univs. and by the candidate. The forms of reply to be used by candidates are described below
- (i) A candidate who receives an offer of a place, whether unconditional, qualifying or conditional, may either *firmly accept* it, or *provisionally accept* it, or *decline* it
- (j) If he *firmly accepts* it he will be regarded as finally committed to the univ. which made the offer ; he will therefore be advised by the central office that it may not be in his interests to give a firm acceptance of a *qualifying* or *conditional* offer unless he is confident of his ability to fulfil its conditions, and that if he is not confident he should *provisionally accept* the offer
- (k) If he *provisionally accepts* it, this will normally be taken to imply that he is not yet willing to commit himself exclusively to the univ. making the offer, either because he is waiting to hear from a univ. now higher in his list of preferences, or perhaps because he is not certain of his ability to fulfil the conditions of the offer. He will be allowed to hold not more than 2 offers which he has provisionally accepted until after the publication of the results of the G.C.E. or other qualifying exam., subject to (k) below, and to certain other rules.
- (l) If he *declines* the offer he will be entitled to receive any further offers which selectors in other univs. may wish to make
- (m) A candidate who *provisionally accepts* an offer will, when making this decision, be given the opportunity of stating whether or not this is his *preferred offer*. If he names it as such, this will be taken to mean that he is now certain that the univ. making the offer is the univ. of his first choice—whether or not it appeared at the head of his list on his application form—and he will be regarded as firmly committed to this univ. provided only that he satisfies the conditions of the offer. But he will still be allowed to hold another offer as an insurance against the possibility that he may not satisfy the conditions of the preferred offer.
- (n) A candidate need not declare his *preferred offer* until after he has had an opportunity of hearing from all the univs. to which he has applied, i.e. until the end of May ; but in June the central office will ask him to name his preferred offer if he has not already done so. If he has by then provisionally accepted only one offer this will automatically become his 'preferred offer'.
- (o) If a candidate *provisionally accepts* an *unconditional offer* from the univ. named as his first choice on his application form the univ. has the option of withdrawing the offer not more than 14 days after the candidate's decision, since the offer may have been made on the false assumption that the candidate's order of choice remained unchanged. Secondly, if, when *having provisionally accepted* a *qualifying offer* from the univ. named as his first choice on his application form, he does not name it as his preferred offer, this again will be taken to imply that his original order of preference has now changed, and the univ. which made the offer will have the option of withdrawing it not more than 14 days after the candidate's decision
- (p) Accompanying every qualifying or conditional offer transmitted by the central office will be a letter informing the candidate that, if he firmly or provisionally accepts this offer, both the univ. making the offer and the candidate himself thereby undertake specific obligations which must be fulfilled, as follows
- (i) If the candidate satisfies the conditions of the offer, the univ. will confirm it, and the candidate must take up the place offered or withdraw altogether provided that a candidate who receives a confirmed offer must finally—unless he withdraws altogether—accept that offer, which he had previously named as 'preferred'
- (ii) If the candidate has not satisfied the conditions of its offer, the univ. may nevertheless confirm the offer, with the same effect as in (i) above
- (q) A candidate will be informed of the following conditions under which he may hold simultaneously 2 offers made in advance of the publication of the results of the qualifying exams :
- (i) Each offer to be retained must have been provisionally accepted.
- (ii) One of the 2 offers must, by an agreed date in June, be named by the candidate as his preferred offer
- (iii) Whilst a candidate need not declare his preferred offer until after he has had an opportunity of hearing from all the univs. to which he has applied, once he has named his preferred offer, he must abide by this choice. He may not subsequently decline this offer—unless he wishes to withdraw altogether—nor may he substitute another preferred offer for this one.
- (iv) A candidate holding 2 offers may receive a further offer through the central office. He

must then decide which a offers he wishes to retain

(p) After the publication of the results of the G.C.E. or other qualifying exam, a univ. (A) will first send through the central office an acceptance to each candidate to whom it has previously made a qualifying or conditional offer and who has either satisfied the terms of this offer, or otherwise proved acceptable. Some of these candidates will already have committed themselves to univ. A by naming it as their preferred offer or by firmly accepting an offer; others will have stated their preference for univ. B and will not go to univ. A unless they have proved unacceptable to B.

(q) Univ. selectors will then be asked to send to the central office

(i) information about the number of places available in each course, and

(ii) a list in ranking order of the remaining candidates to whom they would wish to offer places: this list will include more

names than the number of places available, since the univ. will not necessarily know how many of the candidates on the ranking list would accept places if offered. The central office will do nothing with these lists until an agreed date by which it will expect to have received all outstanding lists from univs; it will then, without further reference to univs., accept sufficient candidates to fill the places available. Whenever a candidate becomes acceptable at more than one univ. the central office will place him at his preferred univ., and this operation will be completed when all the vacancies notified have been filled or the ranking lists exhausted.

(r) Finally, provision will be made for a univ. dept. which has an insufficient number of suitably qualified applicants for all its vacancies to receive from the central office details of any applicants still unplaced whose qualifications appear suitable.

Note.—Countries are arranged under the general headings which were appropriate at the time of the compilation of the statistics early in 1962. The subject headings conform to the categories used by the University Grants Committee in its annual *Revenues* (e.g. Social Studies includes Economics and Law). The numbers in brackets are those of the postgraduate students (see p. 1598 for definition) included in the previous figure, e.g. of the 200 students from Australia who were studying arts, 57 were doing so at the postgraduate level.

at the Sorbonne.

The dept. of Engl. organizes oral and corre-

Engl. lang. and lit. (1st yr., *license* and *agrégation*  
levels) and for the Cambridge exams. in  
Engl. About 2000 students a yr. attend the  
English courses.

The dept. of French organizes courses from  
Oct. to June at school-leaving, undergrad. and  
res. levels, and Easter vacation courses for under-  
grads and sixth-formers. For British students  
spending a yr. in French schs. as assistants,

British students.

### BRITISH SCHOOL AT ROME

*Dir.*—J. B. Ward Peckins, CBE *Postal*  
*address*: Accademia Britannica, Valle Giulia,  
Rome 51. *Hon. general sec.*—W. D. Sturch, 1  
Lowther Gdns, London, S.W.7 (tel.: Kensington  
3665).

The sch. was establd. in 1901 as a sch. of  
archaeol. devoted to the study of the antiquities  
and hist. of Rome and Italy. In 1911 it was  
reconstituted to offer facilities also for practising  
students of archit., sculpture and painting. A  
royal charter of incorporation was granted in the  
following yr.

The sch. to-day includes 5 facs.: archaeol.,  
hist. & letters, archit.; painting; sculpture;  
engraving. The income of the sch. is derived  
partly from public funds, partly from the com-  
missioners for the exhibition of 1851, and partly  
from subscriptions and donations from univs.,  
clubs, socs. and private individuals.

Rome scholps. are offered in classical studies,  
in mediæval studies, and in each of the 4 facs.  
of the fine arts. Particulars of these and other  
scholps. attached to the sch. may be obtained from  
the hon. general sec. (see above).

The sch. is in no sense a teaching instn., and  
admission is normally restricted to winners of one  
of the above scholps. and to grad. students of the  
univs. and art schs. of the Commonwealth who  
are qualified to promote the objects of the sch.  
Accommod. is available for the staff and about 25  
students. There is a library of some 35,000 vols.  
The *Papers of the British Sch. at Rome* provide an  
annual account of the more important archaeol.  
and hist. researches of the sch.

**BRITISH SCHOOL OF ARCHÆOLOGY  
AT ATHENS**

*Dir.*—A. H. S. Megaw, CBE, MA, FSA.  
*Postal address.* British School of Archaeology,  
Odos Souedias 52, Athens. *Sec.*—Mrs M. J.  
Thornton, BA, 31-34 Gordon Square, London,  
W.C.1 (tel. : Euston 8029).

The sch. was founded in 1886. Its first aim is to promote the study of Greek archaeol. in all its aspects, incl. the study of the hist., religion, art and life of ancient Greece as revealed by the monuments and the exploration of ancient and medieval sites. Excavations in Greece have always been one of the principal activities of the sch., but it is also in the widest sense a sch. of classical studies, taking every period of Greek lang. and lit., from

the earliest age to the present day, as its province. With these ends in view, the sch. co-operates with univs., museums and other bodies in the United Kingdom and in other parts of the Commonwealth.

The sch. is largely residential. It admits holders of grad. studentships and travelling fellowships awarded by Commonwealth univs., and other persons who satisfy the managing cttee. that they qualify as students, including those of foreign univs. The academic session is from Nov. 1 to June 30. Students may begin work at any date but are normally required to reside for not less than 3 months.

The library contains some 20,000 archaeol. and other books, together with maps, plans and photographs.

## APPENDIX VII

# COMMONWEALTH SCHOLARSHIP AND FELLOWSHIP PLAN

The Commonwealth Scholarship and Fellowship Plan was drawn up at Oxford in July 1959 at the Commonwealth Education Conference, a meeting of official delegates from the various countries convened by the United Kingdom government in accordance with a decision of Commonwealth Ministers at the Trade and Economic Conference held at Montreal in September 1958. The Montreal conference, in stressing the importance of education and training to the development of the different countries, had expressed the hope that they would be able to share with each other the advantages of education of all kinds and at all levels and had envisaged a scheme of 1000 scholarships, of which the United Kingdom undertook to provide one-half and Canada one-quarter. All the Commonwealth countries and most of the dependent territories were represented at the Oxford conference which, in addition to recommending arrangements for Commonwealth co-operation in such matters as technical training and the supply and training of teachers, worked out details of the Commonwealth Scholarship and Fellowship Plan to which effect has been given by decisions of the various governments. The progress of the scheme was reviewed at the second Commonwealth Education Conference held in New Delhi in January 1962. The conference, having surveyed the achievements of the Plan to date, confirmed with minor modifications the basis on which the Plan is being operated.

The Plan aims (as stated in the report of the Oxford conference) at enriching each country of the Commonwealth by enabling an increasing number of its ablest citizens to share the wide range of educational resources available throughout the Commonwealth and thus at promoting equality of educational opportunity at the highest level.

In general there are two kinds of awards—*Commonwealth Scholarships* which are normally intended for young graduates of high intellectual promise who may be expected to make a significant contribution to life in their own countries on their return from postgraduate study overseas, but which may be awarded for undergraduate study in cases where facilities for such study are not available in their own country, and *Commonwealth Visiting Fellowships* which are intended for a few senior scholars of established reputation and achievement. The main emphasis is on awards in the academic (including technological)

fields but the possibility is not excluded of some awards being made to people outside these fields who play important rôles in the life of their country.

The general basis of the Plan is that each Commonwealth country which is able to do so should institute Commonwealth Scholarships and Fellowships which may be held by men and women from other Commonwealth countries at its universities, colleges and other institutions of higher education. The following countries have instituted scholarships: the United Kingdom, Canada, Australia, New Zealand, India, Pakistan, Ceylon, Malaya, Nigeria, Cyprus, Sierra Leone, Jamaica, East Africa (awards being established jointly by the governments of Kenya, Tanganyika and Uganda), Federation of Rhodesia and Nyasaland, Hong Kong and Malta. Fellowships or awards for senior scholars and education administrators have so far been instituted by the United Kingdom, Australia, New Zealand, India and the Federation of Rhodesia and Nyasaland. Each awarding country (i.e. the country in which the award is tenable) is responsible for the administration of its own awards. Local assistance is provided by the nominating country (i.e. the country from which nominations are invited) in publicising awards and inviting applications from which to select nominations.

The value of the awards is determined by each awarding country and is set out in the prospectus of its awards. In general the emoluments include fares to and from the awarding country, payment of tuition fees, allowances for books, special clothing and local travel and a personal maintenance allowance. In some countries a marriage allowance is paid in addition. The normal period of tenure for a Commonwealth Scholarship is two academic years but in certain circumstances this period may be longer or shorter. Scholars are expected to return to their own countries on the completion of the tenure of the award.

The Commonwealth Scholarships offered by Australia—to take as an example the form given to its competition by one awarding country—are tenable at any Australian university and are open to men and women under 35; only Commonwealth citizens and British protected persons are eligible to apply. These awards are offered in other countries and territories on the basis of a series of 'national quotas'. Other awarding countries have announced similar but not identical

conditions, all of them publish their own notices for circulation in the countries from which applications by candidates are invited. These announcements (with closing dates) will normally be displayed in universities and colleges and (where appropriate) will appear in the local press.

The Plan has now become an established feature of the educational life of the Commonwealth. Full details of the operation of the scheme for the year April 1, 1961, to March 31, 1962, are given in the *Second Annual Report (1961-62) on the Commonwealth Scholarship and Fellowship Plan* prepared by the Association of Universities of the British Commonwealth and published by the Commonwealth Education Liaison Committee. The report summarizes the activities of each country under the scheme and in a series of tabular appendices analyses the competitions held during the year. The Table below shows that 724 awards were actually being held in the various awarding countries in the period covered by the report. The report shows that the great majority of awards have been given for postgraduate study, usually for a higher degree. The awards are, however, evenly distributed by subject, 175 being held in arts, 135 in social sciences, 153 in pure science and 141 in tech-

nology. The remainder are made up of 70 held in medicine, largely tenable in the United Kingdom, two in dentistry, 35 in agriculture and forestry and 13 in veterinary science. It is expected that the total number of awards held in the next year will reach the target of 1000, the stated aim of the Oxford conference. Competitions for awards tenable in 11 countries have been held during the year, and although there has been a fall in the number of applications submitted as compared with the previous year, many countries have indicated that there has been an increase in the number of well-qualified applicants and a corresponding stiffening of the local competitions for nomination to an awarding country.

Candidates for Commonwealth Scholarships offered by whatever awarding country are required to apply through the appropriate scholarship agency in their country of normal residence, i.e. a student who is already temporarily abroad in another country of the Commonwealth may not apply in that country for an award wherever tenable, but must lodge his application with the agency in the country where he ordinarily lives. It will then be considered in the local competition which is held to select candidates for nomination to the particular awarding country. On the other

land, a citizen of one Commonwealth country who has established his permanent home in one of the other countries, must, irrespective of his legal citizenship, submit his application in his adopted country and be judged in the competition with the other applicants there.

Each country in the Commonwealth has designated a local agency for the Commonwealth Scholarship and Fellowship Plan to handle (a) the preliminary selection for nomination to recruiting countries and (b) the final selection from nominations submitted by recruiting countries for its own awards. These agencies also distribute to candidates prospectuses and application forms for the various awards and will, generally speaking, be the best local centres for information about details of the Plan. ## APPENDIX VIII

# THE ASSOCIATION OF UNIVERSITIES OF THE BRITISH COMMONWEALTH

The Association of Universities of the British Commonwealth is a voluntary society whose members are institutions of university standing in the various countries of the Commonwealth. A list of the 138 institutions in its current membership appears on pp. 1631-1633. The Association is at present a limited company incorporated under the Companies Acts of the United Kingdom.

**HISTORY** In 1912, on the initiative of the University of London, representatives of 53 universities assembled in London to hold a Congress of Universities of the Empire. One of their main decisions was that a bureau of information for the universities of the Empire should be established and that its affairs should be managed by a committee representing both home and overseas universities. The office of the Universities Bureau of the British Empire was accordingly opened in London in 1913. In 1919, the Bureau was incorporated under licence of the Board of Trade and a grant of £5,000 made by H.M. government for office premises on condition that the universities of the Empire undertook to provide adequate funds for maintenance.

The 1912 congress also planned that similar meetings should be held at five-yearly intervals. The Bureau (whose name was changed in 1948 to the Association of Universities of the British Commonwealth) has been responsible for organizing these congresses, which were in fact held in 1921, 1926, 1931, 1936, 1948, 1953 and 1958. The eighth Congress of the Universities of the Commonwealth, which was held in Montreal in 1958, and was the first in the series to take place outside the United Kingdom, was attended by 385 delegates, 102 member institutions being represented. The next congress, which will mark the jubilee of the Association, will be held in London in July 1963. Since 1948 a number of small conferences of heads of universities (usually comprising the 16-18 members of the executive council of the Association or their deputies) have been held in different parts of the Commonwealth to discuss matters of common interest arising between congresses.

The premises at 36 and 37 Gordon Square now housing the headquarters of the A.U.B.C. have been leased from the University of London since 1955. In 1961, on the invitation of the U.K.

government, a Branch Office of the Association was opened in the newly established Commonwealth Centre at Marlborough House, Pall Mall.

**INCOME AND CONTRIBUTION** The income of the Association is almost wholly derived from the annual subscriptions (at rates fixed according to their size) of Ordinary Members (universities), Associate Members (university colleges) and Additional Members (other institutions of recognized academic status), and from their contributions for special purposes.

The A.U.B.C.'s affairs are controlled by an executive council elected each year at an annual general meeting of members. Each member institution is entitled to be represented at this meeting by its executive head (vice-chancellor, president or principal) or by a personal deputy whom he may appoint. The meeting elects a council of 16 members to represent member universities in the different countries, and a chairman, vice-chairman and honorary treasurer are appointed by the new council. The chairman is the executive head of a member university, and is chosen from the different countries of the Commonwealth in turn, usually with regard to the venue of the principal executive meeting of the Association in the year concerned.

**AIM** The Association works in a variety of practical ways to implement its aim of serving the interests of the universities of the Commonwealth and, in particular, of promoting contact and co-operation between them. In addition to acting as an agent in London for individual member universities on their direct instructions, e.g. in relation to staff appointments, it provides general services such as those of its publications and information department, and makes a secretariat available for various bodies dealing with matters affecting its member institutions, such as the Commonwealth Scholarship Commission, the Marshall Aid Commemoration Commission and the Committee of Vice-Chancellors and Principals of the Universities of the United Kingdom.

**APPOINTMENTS** The Association provides an appointments service which gives university teachers and graduates the opportunity of hearing about teaching and research vacancies at universities in Commonwealth countries other than

then own, and of registering their claims to consideration for any particular post. Acting for overseas member institutions wishing to invite applications from other countries, the Association has established machinery whereby, as such vacancies occur, they can be regularly announced from London by public advertisement and through circulation to universities in the United Kingdom and other parts of the Commonwealth. In addition it manages, if requested, for applicants from the United Kingdom or from the continent of Europe to be interviewed in London by independent expert advisory committees, who then report to the university concerned on the suitability of the candidates.

In all these matters the Association acts on behalf of the particular member institution and in accordance with its specific instructions, it does not purport to be an appointments board or graduate placement agency with the general function of finding posts abroad for university teachers or graduates who might individually seek its services.

The appointments department, which deals with about 5000 enquiries each year, is one of the two sections of the office now located in the west wing of Marlborough House, where the Commonwealth Centre coordinates various agencies concerned with educational co-operation in the Commonwealth.

**SCHOLARSHIP SCHEMES.** Also located at the Branch Office in Marlborough House is the secretariat provided by the Association for the Commonwealth Scholarship Commission in the United Kingdom which is responsible for the administration in the U.K. of the Commonwealth Scholarship and Fellowship Plan, under which scholarship agencies have been set up in all Commonwealth countries. The commission has two main tasks: to select Commonwealth Scholars and Commonwealth Visiting Fellows and place them in universities and colleges in the United Kingdom, and to invite applications from United Kingdom candidates, and make nominations to the appropriate overseas agencies, for awards tenable in other Commonwealth countries. About 500 nominations are received annually from overseas countries for the Commonwealth Scholarships offered by the United Kingdom; from these, about 250 candidates are selected, and places found for them, by the commission. The commission deals each year with more than 200 U.K. applications for the scholarships being offered under the Plan by other Commonwealth countries, particulars of which are advertised in the press as well as being circulated to universities and other interested bodies. Detailed analyses of this work are published in the *Annual Reports of the Commonwealth Scholarship Commission in the United Kingdom* (H.M.S.O.).

In addition, the A.U.B.C. is responsible for gathering from all the participating countries annual statements on their activities under the

Plan, and for preparing the comprehensive report of the Plan's work and progress in the Commonwealth as a whole which appears in the *Annual Reports of the Commonwealth Scholarship and Fellowship Plan* published by the Commonwealth Education Liaison Committee.

The secretary of the Association also acts as executive secretary of the Marshall Aid Commemoration Commission, which was established by the U.K. government to award scholarships tenable at universities in the United Kingdom by selected students from the U.S.A. Twenty-four Marshall Scholarships are now offered for competition each year, and the services of the Association's office are made available for the task of placing the scholars and for their general supervision during their stay in the United Kingdom.

The Association concerns itself with the administration of other scholarships and grants provided by various bodies to enable students and teachers at its universities to go abroad for further work and study. At the request of Harvard University, the Committee of Vice-Chancellors and Principals of the Universities of the United Kingdom (see p. 1622) arranges the annual competition for the Frank Knox Memorial Fellowships tenable at Harvard by U.K. graduates. The Association also participates in the Commonwealth University Interchange Scheme, being represented (with the U.K. Committee of Vice-Chancellors and Principals and the Inter-University Council for Higher Education Overseas) on the committee which awards travel grants, administered by the British Council, to university workers making overseas visits within the Commonwealth.

**PUBLICATIONS AND INFORMATION.** From its beginning in 1912 the Association (then the Bureau) has regarded the provision of information on matters relating to universities as one of its major tasks. The main way in which the A.U.B.C.'s information service meets the need for facts about Commonwealth universities is by the production of the *Commonwealth Universities Yearbook* and other publications. The *Yearbook*, which in its fortieth (1963) edition will contain 1800 pages, has an international reputation as a work of reference. It is issued annually to provide, in a single volume and in a form suitable for quick consultation, the essential facts about Commonwealth universities needed by university teachers and administrators, students and others seeking detailed information about staff, organization, facilities and admission requirements.

Among the other publications of the Association are the *Reports of Proceedings of the Quinquennial Congresses of Universities of the Commonwealth*, *Higher Education in the United Kingdom: A Handbook for Students from Overseas* and their *Advisers*, which is produced every two years jointly with the British Council and contains in its 240 pages a directory to courses of study at universities and other institutions of higher education, together with details of admission

requirements, scholarships, cost of study and residence, etc., *United Kingdom Postgraduate Awards*, a biennial 150-page booklet listing fellowships and scholarships tenable at U.K. universities, which was first produced following a recommendation of the 1948 congress that there should be prepared in each Commonwealth country a list of postgraduate awards tenable at its universities by students from overseas. A list of Commonwealth universities and their addresses and the annual *Reports* of the executive council are also available as printed leaflets. In addition to the annual *Report of Proceedings of the Conference of the Universities of the United Kingdom*, the A.U.B.C. has published for the U.K. Committee of Vice-Chancellors and Principals special reports such as *Applications for Admission to Universities* (1957) by R. K. Kelsall, *Three Reports* (1958-61) of an *ad hoc* Committee on Procedure for Admission of Students and the *Report of a Sub-Committee on University Entrance Requirements in England and Wales* (1962), together with a *Code of Practice for the protection of persons exposed to Ionizing Radiation in University Laboratories* (1961).

With the co-operation of the registrars of U.K. universities, the Association compiles annually statistical information about the overseas students enrolled at universities in the United Kingdom. These statistics are published in leaflet form and appear also as an appendix of the *Yearbook*.

The information service receives a great many enquiries of varying kinds from universities, inter-university organizations, inter-governmental organizations, national government departments, industrial firms and members of university teaching staffs, as well as from students seeking information about facilities for study and research. In addition to requests for information about universities in Commonwealth countries overseas, these enquiries include many from home sources requiring answers about higher education and universities in Britain itself. Although in answering these queries the principal resources available to the staff consist of the material contributed by universities for the *Yearbook* and other publications, this is complemented by the Association's library of current university calendars, prospectuses and gazettes, by a good collection of international reference works on university matters published by other bodies, and by government reports, statistical publications, etc.

On questions of academic policy or administration, information which the Association has collected is also available. It is, because of the range and variety of its activities, in a position to procure authoritative information on many university problems.

A register is kept of the United Kingdom addresses of academic visitors from overseas, and through the co-operation of the registrars of overseas member institutions the Association is able to issue at regular intervals a list, which is widely circulated in the United Kingdom, of those academic visitors from other parts of the

Commonwealth who are either known to be in the United Kingdom or expected to arrive in the near future.

**U.K. COMMITTEE OF VICE-CHANCELLORS AND PRINCIPALS** A considerable part of the activity of the Association's office is centred in the work of the Committee of Vice-Chancellors and Principals of the Universities of the United Kingdom. This committee was first established in 1918, and the Association provides its secretariat under an arrangement whereby its member universities in the United Kingdom specially subsidize the Association as a centre for certain common academic activities there.

The committee is a consultative and advisory body with no executive powers. It considers matters of common interest to universities, and is not restricted to topics specifically referred to it. By its consultative activities and the nature of its membership the committee holds an influential position in university affairs, but its decisions cannot bind the universities. From time to time it sponsors special inquiries, the results of which are published by the Association on its behalf (see above). Each year the committee organizes in London a conference of the U.K. universities at which topics of current interest are discussed.

**INTERNATIONAL LINKS** The Association acts as a link between the local inter-university organizations in various other countries of the Commonwealth, such as the National Conference of Canadian Universities and Colleges, the Australian Vice-Chancellors' Committee, the New Zealand Vice-Chancellors' Committee, the Inter-University Boards of India and Pakistan, and the Inter-University Council for Higher Education Overseas which is located in Britain. The Association is likewise in regular contact with similar national bodies in Europe and in the U.S.A., and with Unesco and the International Association of Universities (of which the A.U.B.C. is an associate member). The secretary of the A.U.B.C. is also the national secretary of the British delegation to the Council of Europe's Committee for Higher Education and Research.

Under an arrangement made with the Association by the French Ministry of National Education, the French university authorities will admit without further examination any candidate whose examination certificates have been attested by the A.U.B.C. as satisfying the minimum requirements for admission to a degree course at a British university. The Association is also the issuing authority for U.K. university teachers and post-graduate students who wish to carry Council of Europe cultural identity cards while travelling abroad on academic work.

\* \* \*

This general outline of the practical ways in which the Association works can be supplemented by reference to the detailed annual *Reports* of the executive council.

The Association exists as a manifestation of a

wish on the part of the universities of the Commonwealth for co-operation in various aspects of academic activity, but from its beginning the principle was laid down that the institution of a central bureau must not involve any attempt to standardise academic practices, procedures and methods of universities. This was confirmed at the 1931 congress when it was resolved that: 'The powers of the Association shall not be exercised in any such way as to restrict the powers

and duties exercised by the constituent members under the several charters, statutes, regulations and other instruments of their self-government'. The Association's objective as an administrative unit is to act always in the interests of its member institutions, in accordance either with their collective policy or their individual instructions, and to adapt its practice to their requirements in whatever ways may be considered useful and desirable.

Association for the time being vested in or exercisable by the Council generally.

24. The Council may delegate such of its powers as it considers desirable to any Committee consisting of members of the Council.

25. The meetings and proceedings of any such Committee shall be governed by the provisions herein contained for regulating the meetings and proceedings of the Council, so far as the same are applicable thereto.

26. The Council may from time to time appoint a Secretary of the Association and any other officers or servants who may be required for the performance of the business of the Association or of the Council and may from time to time appoint a temporary substitute for the Secretary who, in the absence of the Secretary, shall be deemed to be the Secretary.

27. All acts done by any meeting of the Council or by any person acting as a member of the Council shall notwithstanding that it shall be afterwards discovered that there was some defect in the appointment of the Council, or persons acting as aforesaid, or that they or any of them were disqualified, be as valid as if every such person had been duly appointed and was qualified to be a member of the Council.

28. Without prejudice to the generality of the powers conferred upon the Council by Article 17 the Council may from time to time frame regulations (a) generally to give effect to the provisions of the Memorandum of Association and of these Articles and (b) particularly for the following purposes:

- (1) for admitting Universities which may hereafter become corporations;
- (2) for admitting as Associate Members Corporations which are Universities in the United Kingdom or of any other Commonwealth country and other institutions, being University Colleges or Colleges of Universities within the Commonwealth;
- (3) for assigning privileges of membership to (a) Associate Members and (b) other classes of Members;
- (4) for prescribing a form to be signed by Members prior to admission as Members;
- (5) for prescribing the manner in which the groups of Universities referred to in Article 12 shall appoint representatives;
- (6) for managing the business and defining the duties of the Association;
- (7) for delegating to Committees of the Council such of its powers as are not inconsistent with the provisions of these Articles;
- (8) for fixing the manner of the appointment of the special Committees referred to in Articles 18 and 19;
- (9) for arranging for the provision of secretarial assistance to such Committees; and for assessing any exceptional expenditure involved and distributing it amongst Universities concerned;
- (10) for determining the period for which the

Chairman, Vice-Chairman and Honorary Treasurer of the Association are to hold office;

- (11) for defining the manner in which the Minutes of business transacted at meetings of the Association are to be recorded;
- (12) for providing for the custody of the seal and for determining the officer of the Association other than the Secretary who may countersign instruments to which the seal is attached;
- (13) for prescribing the form in which instruments appointing proxies shall be framed;
- (14) for prescribing the books of account which have to be maintained in accordance with the provisions of Article 6e;
- (15) for prescribing the place at which such books of account shall be kept.

Provided always that no regulation made by the Council shall have any validity or effect if it amounts to or involves such an alteration or addition to these Articles as could only lawfully be made by Special Resolution.

#### MINUTES

29. The Council shall cause minutes to be duly entered in books provided for the purpose of all business transacted at General and Extraordinary Meetings and at meetings of the Council and Committees thereof.

30. Any such minutes of any meeting of the Council or of Committees thereof, or of the Association, if purporting to be signed by the Chairman of such meeting, or by the Chairman of the next succeeding meeting, shall be conclusive evidence of the matters stated in such minutes.

31. The Council shall submit to the Annual General Meeting of the Association a report of its work and activities during the preceding year.

#### SEAL

32. The Council shall provide for the safe custody of the seal, and the seal shall never be used except by the authority of the Council previously given, and in the presence of a member of the Council, who shall sign every instrument to which the seal is affixed, and every such instrument shall be countersigned by the Secretary or some other person appointed by the Council.

#### GENERAL MEETINGS

33. A General Meeting of the Association shall be held once at least in every calendar year in London or such other University town and at such time as may be determined by the Council provided that a General Meeting shall be held within not more than fifteen months after the holding of the last General Meeting.

34. The above-mentioned General Meetings shall be called Ordinary Meetings, all other General Meetings shall be called Extraordinary Meetings.

35. An Extraordinary Meeting of the Association shall be held during the progress of each Quinquennial Congress of Universities of the

Empire or within three days of the commencement or termination of that Congress.

36. Notwithstanding any provisions to the contrary in these Articles the Chairman of the Association or in his absence the Vice-Chairman of the Association shall have power at any Extraordinary Meeting summoned under the provisions of Article 35 to place on the agenda matters which have been the subject of a resolution passed by the delegates at the Quinquennial Congress during which the Extraordinary Meeting is being held.

37. The Council may whenever it thinks fit and it shall upon a requisition made in writing and signed by Members entitled to vote representing not less than one-tenth of the total voting rights of all the Members having at the date of the requisition a right to vote at General Meetings of the Association convene an Extraordinary Meeting. The Secretary shall at any time when required by the Chairman of the Association or in his absence abroad by the Vice-Chairman of the Association summon an Extraordinary Meeting.

38. Any requisition made by the Members of the Association entitled to vote as aforesaid shall express the object of the meeting proposed to be called and shall be left at the registered office of the Association.

39. Upon the receipt of such requisition the Council shall forthwith proceed to convene an Extraordinary Meeting and if they neglect to do so for twenty-one days from the time of the requisition being so left the requisitionists or any of them representing more than one-half of the total voting rights of all of them may themselves convene the meeting in the same manner as nearly as possible as that in which meetings are to be convened by the Council.

40. The business of an Ordinary Meeting shall be—

(a) To receive and consider the accounts, the balance-sheet and the reports of the Council and the Auditors.

(b) To appoint an Auditor or Auditors and fix his or their remuneration.

(c) To appoint the members of Council in accordance with the provisions of Article 13. All other business transacted at an Ordinary Meeting and all business transacted at an Extraordinary Meeting shall be deemed special. If any Member has any proposal or any matter which he wishes to make or bring before an Ordinary Meeting he shall give fourteen days' written notice thereof to the Secretary.

41. Subject to the provisions of Section 14(3) of the Companies Act, 1948, relating to Special Resolutions, twenty-eight days' notice at the least (or in the case of a meeting convened pursuant to a requisition of Members fourteen days' notice at the least) exclusive of the day of giving the notice but inclusive of the day of the meeting, specifying the place, the day and hour of meeting and (in case of special business) the general nature of such business, shall be given by notice to the Members in manner hereinafter stated with reference to the giving of notices, but the accidental omission to

give such notice to or the non-receipt of such notice by any Member shall not invalidate the proceedings of any meeting.

42. Except as otherwise provided by these presents no business shall be transacted at any General Meeting unless a quorum of representatives of Members entitled to vote is present at the time when the meeting proceeds to business.

43. A quorum shall consist of ten representatives of Ordinary Members.

44. If within half an hour from the time appointed for a meeting ten representatives of Ordinary Members entitled to vote are not present the meeting if convened upon a requisition of Members shall be dissolved but in any other case it shall stand adjourned to a place to be fixed by the Chairman of the Association or in his absence abroad by the Vice-Chairman of the Association and to a date to be fixed by the Chairman or Vice-Chairman (as the case may be) not earlier than two weeks and not later than one month after the date of the original meeting, and if at such adjourned meeting a quorum is not present but two or more representatives of Ordinary Members entitled to vote are present the representatives of Members present entitled to vote shall be a quorum and may transact the business for which the original meeting was called.

45. At any adjourned General Meeting the representatives of Ordinary Members present entitled to vote being two or more in number shall have the power to decide upon all matters which could properly have been disposed of at the meeting from which the adjournment took place had a sufficient number of representatives of Members entitled to vote been present at such meeting. Notice of the time and place fixed by the Chairman of the Association or the Vice-Chairman of the Association (as the case may be) for an adjourned meeting shall be given to all Members entitled to receive notices of meetings.

46. The Chairman of the Association if present shall be the Chairman of every General Meeting, but if the Chairman of the Association is absent then the Vice-Chairman shall preside and if neither the Chairman nor the Vice-Chairman is present the representatives of Members present at the meeting and entitled to vote shall choose a representative entitled to vote to act as Chairman in his place.

47. The Chairman may upon the resolution of the meeting adjourn any meeting from time to time and from place to place but no business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.

48. No poll shall be demanded on the appointment of a Chairman or on a question of adjournment.

49. At any General Meeting unless a poll is demanded by at least two representatives of Members entitled to vote a declaration by the Chairman that a resolution has been carried or has been carried unanimously or by a particular majority or lost or not carried by a particular

majority and an entry to that effect in the book of proceedings of the Association shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded in favour of or against such resolution.

50. If a poll is demanded by two or more representatives of Members entitled to vote it shall be taken in such manner as the Chairman directs and he shall have power to take the poll at once at the meeting or to adjourn the meeting for a reasonable time not exceeding fourteen days for the purpose of taking such poll, and the result of such poll shall be deemed to be the resolution of the Association in General Meeting. In case of an equality of votes at any General Meeting the Chairman shall be entitled to a second vote or casting vote.

51. Minutes of all resolutions and proceedings at General Meetings signed by any person purporting to be the Chairman of the Meeting at which such Minutes were signed as correctly recorded, shall be conclusive evidence of the facts therein stated.

52. Nothing in these Articles shall preclude the Council from inviting any member of the teaching or administrative staff of a corporation or institution, which is an Ordinary Member or an Associate Member, to attend a General or Extraordinary Meeting of the Association, or any meeting of the Council or Committees thereof, provided that any person so attending any meeting shall not be entitled to vote at such meeting or to participate in any discussion on any subject other than that for the discussion of which he has been invited to attend.

#### VOTES AT GENERAL MEETINGS

53. Every Member entitled to vote represented directly or by proxy shall have one vote and no more at a General Meeting except the Chairman, who shall, in case of an equality of votes, have a second or casting vote.

54. Votes may be given either personally by the representative of a Member or by proxy given by such representative.

55. The instrument appointing a proxy shall be in writing under the hand of the appointer and may be in the following form:

SIGNED this \_\_\_\_\_ day of \_\_\_\_\_ Or in such other form as the Council shall approve.

56. Only representatives of Members entitled to vote shall be appointed proxies.

57. The instrument appointing a proxy shall be deposited at the registered office of the Association or delivered to the Secretary not less than forty-eight hours before the time appointed for holding the meeting at which the person named in such instrument proposes to vote.

58. No objection shall be made to the validity of any vote except at the meeting or poll at which such vote shall be tendered, and every vote whether given personally or by proxy not disallowed at such meeting or poll shall be deemed valid for all purposes of such meeting or poll whatsoever.

59. The Chairman of any meeting shall be the sole and absolute judge of the validity of every vote tendered at such meeting or poll and may allow or disallow the votes tendered according as he shall be of opinion that they are or are not valid.

#### ACCOUNTS

60. The Council shall cause proper books of account to be kept with respect to—

- (a) all sums of money received and expended by the Association and the moneys in respect of which the receipts and expenditure take place, provided that receipts and expenditure in connection with the Committee of Vice-Chancellors and Principals of the Universities of the United Kingdom and with any other Committees or societies of these Universities shall be shown separately;
- (b) all sales and purchases of goods by the Association;
- (c) the assets and liabilities of the Association.

61. The books of account shall be kept at such place as the Council may from time to time appoint, and subject to any reasonable restrictions as to the time and manner of inspecting them that may be imposed by the Association in General Meeting, the books of account shall be open to the inspection of the Members at all times during the usual business hours.

62. The Council shall from time to time, in accordance with Section 148 of the Act 1948, cause to be prepared and to be laid before the Association in General Meeting such income and expenditure accounts balance sheets and reports as are referred to in that section.

63. A copy of every balance sheet (including every document required by law to be annexed thereto) which is to be laid before the Association in General Meeting together with a copy of the auditor's report shall not less than seven days before the date of the meeting be sent to all persons entitled to receive notices of General Meetings of the Association.

tative of such Member or by sending it by post to such representative to his address. Every representative of a Member shall furnish to the Association an address at which notices may be served.

66. (a) Where a notice is sent by post to an address in the United Kingdom or the Republic of Ireland, service of the notice shall be deemed to be effected by properly addressing, prepaying and posting a letter containing the notice, and, unless the contrary is proved, to have been effected by the second day after that on which it was posted.

# GENERAL INDEX

[For index to the names of teaching staff and administrative officers, see pp. 1673-1826]

The General Index contains references to institutions, to subjects of study, and to such topics as Admission, Degrees, Vacation Courses, etc.

In each university entry in the book, only the first page on which a subject of study is mentioned is indexed, the several colleges, etc., of a federal university being treated as separate entries. This single reference is usually to a departmental heading, or bracketed subject beside a status, in the staff list, but a further (unindexed) mention of the subject may also be found in each paragraph as 'First Degrees' or 'Diplomas' in the section of General Information for that university.

Although, under the heading of 'Medicine', a reference is given in the index to each medical school or faculty, subjects which normally form part of the course for a degree in medicine are not indexed separately. Such subjects are: anatomy, bacteriology, dermatology, forensic medicine, gynaecology, obstetrics, ophthalmology, orthopaedics, oto-rhino-laryngology, paediatrics, pathology, physiology, surgery, tuberculosis, venereal diseases.

Similarly, although a reference is given in the index, under the heading of 'Dentistry', to each dental school or faculty, subjects which normally form part of the course for a degree in dentistry are not indexed separately. Subjects normally forming part of the course for a degree in veterinary science are treated in the same way.

The indexing of subjects which may be studied at all, or almost all, universities is limited to the indexing of references in the several national introductions. Such subjects are: biochemistry, biology, botany, chemistry, classics (Greek and Latin), economics (political economy), education, engineering (also civil, electrical and mechanical engineering), English, French, geography, geology, German, history, law, mathematics (also pure and applied mathematics), music, philosophy, physics, politics (political science), psychology, social studies, zoology. It should, however, be noted that the less common branches of these subjects (e.g.: agricultural chemistry, music, African) are fully indexed in the way described in paragraph two above.
